[Popular Science](#) Feb 13 2021 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

British Ford Cars of the 1960s and 1970s Aug 29 2019 The 1960s and 1970s were a pivotal period for Ford in Europe and, seen from a British perspective, were a time of experimentation and exploration. At the start of the 1960s Ford had models aimed at just two market sectors – small family saloons and large family saloons – but by the end of the 1970s they were represented in no fewer than five areas of the market with small hatchbacks, small saloons, medium saloons, sporty coupés and large saloons. And they had overtaken all rivals in Britain to be the best-selling manufacturer with (since 1967) the Cortina as the best-selling car. With over 270 photographs, this book details: the Ford company structure, businesses and key locations throughout the two decades; the factors influencing model design, engineering, styling and interior; specification and performance tables; market reception and sales; special editions, models produced overseas and conversions and finally, helpful buying advice for each model.

Ford Escort and Cortina Mk I and Mk II Mar 29 2022 Ford Cortina and Escort Mk I and Mk II models brought family motoring to millions of people from the early 1960s. These Fords were straightforward, easy to drive and simple to maintain, and their popularity has been sustained largely because of this. Their basic simplicity of design and inherent ruggedness means that they are ideal candidates for DIY restoration. The booming owners's club movement and the continuing availability of spare parts ensures that these cars will have a strong following for many years to come.
