On the Track of the Monmouth's Galleon---And Sunken Treasure Sep 06 2020 The book is a fast-paced mystery and detective story about a diving adventure to recover the treasure from a large Spanish galleon captured by the British warship HMS Monmouth in 1702. It had sunk after hitting a submerged rock during the battle off Vigo Bay, Spain. The book also vividly describes the dangers that the crew of the dive boat encountered. Interspersed are lively vignettes about celebrities that the author meets. This final book by John Potter details the pioneering thought patterns of the man who encountered onerous problems of open-ocean, deep-water salvage and solved them. It is a true-life work seasoned with the delicious spices of the glitterati, world events, and--occasionally--personal peccadilloes. His vignettes are lively and fun. Potter meets celebrities including Errol Flynn, Richard Burton and Andres Segovia. A significant event involved the sinking of the Ave del Mar off of Vigo in 1956. Twenty-five fishermen were lost. Potter and his crew spend three weeks searching the stormy ocean bottom for this wreck. Eventually they are able to recover twenty-three of the bodies. This was extremely important to the victims' families because they believe without a Christian burial it would be impossible for the souls of their loved one to travel to heaven. Stylistically, On the Track is impressive. The author's descriptions are vivid and his knowledge of European history encyclopedic. In all, it is a spellbinding story of shipwreck research, tenacity and the exciting search for one of Spaiobn's richest sunken treasures. Readers feel like they are part of the dive team. And, there is a fascinating ending to this story!

Diving Fever Apr 25 2022 Just the mention of Sunken Treasure brings to mind ageless images of old wooden sea chests overflowing with thousands of golden doubloons and silver coins. Handfuls of tangled golden chains containing exquisite jewels are among the priceless artifacts that are woven throughout the decaying chests as well as our vivid imaginations. Sunken Treasure creates romantic visions of Spanish Galleons gracefully navigating the ancient high seas. Their opaque canvas sails billowing in a gentle Gulf Stream breeze. One can feel not only the warm touch of the wind, but a slight spray of the sea as the adventurous ships make way. However, Sunken Treasure also stimulates a frightening sense of terror as scores of ships wreck upon treacherous hidden reefs, vast amounts of treasure are lost forever and bloodthirsty pirates lurk on the distant horizon.

**The Spanish Galleon** Mar 13 2021 Excerpt from *The Spanish Galleon: Being an Account of a Search for Sunken Treasure in the Caribbean Sea* My name is William Morgan, and I am a lineal descendant of that William Morgan who was a brother of the famous Welsh buccaneer, Henry Morgan. I mention this in no spirit of pride, - quite the contrary, - but because some may choose to trace in these adventures evidence of hereditary tendencies. On the eighteenth day of August, 1886, as the sun was setting, I was floating in the Caribbean Sea. You may mark the place on the map as being approximately N. latitude 15, and W. longitude 62 from Greenwich; or in other words, between one hundred and two hundred miles west of the French island of Martinique. A chest, well corded but partly filled with water, was all that kept my head above the surface. Without food or drink I had been floating thus since shortly after sunrise of the previous morning. At that time the sloop in which I was voyaging, capsized and sunk in a squall, drowning the negro captain and owner, and his son, who constituted the crew. In this little vessel I was bound for a small uninhabited island known as Key Seven, which was in plain sight when the disaster occurred. For two days and a night, without sleep or refreshment, I had been struggling to push the floating chest toward this land. **Encyclopedia of Western Atlantic Shipwrecks and Sunken Treasure** Nov 08 2020 From aerial survey to zoology, Part I of this two-part encyclopedia covers all aspects of underwater archeology, treasure hunting and salvaging. For example, entries are included for different types of artifacts, notable treasure hunters, the various salvaging equipment, and techniques in mapping and excavating. Part II covers the shipwrecks themselves, dividing them into 13 geographical categories. Beginning with the northernmost category (Canada) and ending with the southernmost (South America), every known shipwreck--both identified and unidentified--receives an entry in alphabetical order under its appropriate geographical category. Entries are by name, such as Andrea Gail, Titanic, and Queen Ann's Revenge. Unidentified is used when a shipwreck's name remains unknown. Entries give the nationality (e.g., Spanish, British, American), type (schooner, frigate, brig are three), function (examples: slave transportation, piracy, fishing), location and history of the shipwreck.
