Finding Corporate Resources Apr 29 2022

Practical and user-friendly, this volume offers guidance to schools and school districts regarding 12 kinds of resources (including money) that corporations and local businesses can make available to the community in the United States. The author discusses the pros and

cons of acquiring and using each resource, and explains how to forge lasting working relationships with the corporations to foster future contributions.

Post Office Closure Programme Sep 22 2021

This report examines how the Post Office closure programme is being implemented and areas where it could be improved. The Network Change Programme began in July 2007 and the final consultation is scheduled to end in October 2008. This challenging timetable has meant that consultation has been curtailed, and the whole

process has been rushed. The Committee does not accept that a reduction to 7,500 offices is acceptable, and a minimum of 11,500 fixed outlets is recommended. Post Office Ltd should be clearer in its approach to public consultation about closures. The Committee is also concerned that access criteria - proximity of population to offices, local transport and geographical constraints - have not been fully taken into account, nor the principle of services being fully accessible to all. The process has been improving with more experience, but there is still room for further improvement and clarity.

[The President on Trial](#) Oct 24 2021 During the 1980s, thousands of Chadian citizens were detained, tortured, and raped by then-President

Hissène Habré's security forces. Decades later, Habré was finally prosecuted for his role in these atrocities not in his own country or in The Hague, but across the African continent, at the Extraordinary African Chambers in Senegal. By some accounts, Habré's trial and conviction by a specially built court in Dakar is the most significant achievement of global criminal justice in the past decade. Simply creating a court and commencing a trial against a deposed head of state was an extraordinary success. With its 2016 judgment, affirmed on appeal in 2017, the hybrid tribunal in Senegal exceeded expectations, working to deadlines and within its budget, with no murdered witnesses or self-dealing officials. This book details and contextualizes the Habré trial. It presents the trial and its impact using a novel structure of first-person accounts from 26 direct actors (Part I), accompanied by academic analysis from leading experts on international criminal justice (Part II). Combined, these views present both

local and international perspectives through distinct but inter-locking parts: empirical source material from understudied actors both within and outside the court is then contextualized with expert analysis that reflects on the construction and work of: the Extraordinary African Chamber (EAC) as well as wider themes of international criminal law. Together with an introduction laying out the work and significance of the EAC and its trial of Hissène Habré, the book is a comprehensive consideration of a history-making trial.

Your Technology Outreach Adventure Nov 05 2022 From straightforward internet access to elaborate makerspaces, libraries have taken center stage when it comes to providing free access to technology to those who visit their physical spaces. But how about people who don't walk into a library? How do we ensure those members of the community are also being reached by technology programming? It's time to launch an adventure! Berman, named an ALA Emerging Leader and Library Journal Mover & Shaker, provides readers with a comprehensive plan for creating and implementing successful technology-based outreach. She also teaches readers design thinking skills that can enable library staff to become creative problem solvers. Sharing the methods and experiences of her team at San José Public Library, Berman's guide presents numerous real-world case studies, including videomaking in a skate park, e-readers for seniors, popup mobile makerspaces, and simple circuits in middle school, that will inspire

readers to move technology beyond the walls of the library; offers dozens of design thinking exercises, such as rapid prototyping, empathy mapping, and logic models, as part of a start-to-finish model for developing a new program concept; discusses the origins of and reasons behind the digital divide, then shares outreach fundamentals and best practices that will help ensure success; and provides information about ways to connect with the community, perform evaluation, offer STEM programming, and additional resources. This guide will empower libraries to design and prototype technology-based outreach ideas safely, quickly, and with confidence, leading to better service for all members of the community.

Street Kids Oct 04 2022 Street outreach workers comb public places such as parks, vacant lots, and abandoned waterfronts to search for young people who are living out in public spaces, if not always in the public eye. Street Kids opens a window to the largely hidden

world of street youth, drawing on their detailed and compelling narratives to give new insight into the experiences of youth homelessness and youth outreach. Kristina Gibson argues that the enforcement of quality of life ordinances in New York City has spurred hyper-mobility amongst the city's street youth population and has serious implications for social work with homeless youth. Youth in motion have become socially invisible and marginalized from public spaces where social workers traditionally contact them, jeopardizing their access to the already limited opportunities to escape street life. The culmination of a multi-year ethnographic investigation into the lives of street outreach workers and 'their kids' on the streets of New York City, Street Kids illustrates the critical role that public space regulations and policing play in shaping the experience of youth homelessness and the effectiveness of street outreach.

Rights-Based Community Practice and Academic Activism in a Turbulent World

May 19 2021 Drawing on a theoretical model of coexistence premised on universality, reciprocity and inclusion, this book focusses on the development of academic social work programs and cross-border partnerships to promote social justice and peace in Israel, Palestine, and Jordan. Using the model of rights-based practice initiated by Professor Torczyner in Montreal and brought to the Middle East in the 1990s, it shows how the creation and brokering of cross-border partnerships added the concept of rights-based practice to the lexicon of these countries, established groundbreaking advocacy centers in the hearts of disadvantaged communities, developed academic social work programs, and initiated important policy changes in each country to reduce inequality and promote social inclusion. Showing how this evolving method of

Download File Student Outreach Solution Read Pdf Free

rights-based practice rooted in theories of coexistence was uniquely adapted in different contexts and cultures while negotiating complex, volatile political environments, it illustrates how long-term peace can be advanced when like-minded people —irrespective of nationality or religion—find ways to promote common interest and a regional culture where all people share the same rights. This book will be of interest to all social work students and practitioners interested in community organization and rights-based practice, as well as scholars, policy makers and practitioners of international development, political science, peace studies, Jewish studies, Middle Eastern studies, reconciliation, and conflict resolution.

diplomacy. Determining levels of public diplomacy funding. Establishing capabilities to improve monitoring and assessment of public diplomacy activities. Charts and tables.

Postal services in Scotland May 31 2022 The Committee's report considers two key issues: the maintenance of a universal service and the continuation of a sustainable Post Office network across Scotland. The report welcomes assurances that Scotland would not be made exempt from the universal service obligation. Further clarification is needed on Ofcom's power to designate more than one universal service provider. Ofcom should be required to consult with consumers, small businesses and vulnerable users in remote, rural and island communities in Scotland before it recommends any changes to the existing USO. There are considerable advantages to a long, stable and robust relationship between Royal Mail Group and Post Office Ltd and the Committee recommends that a ten year Inter Business

Download File Student Outreach Solution Read Pdf Free

Agreement should be reached prior to any sale of Royal Mail. On the Post Office network, the Bill makes no provision for the number of Post Offices and does not set out criteria for access to the network, a matter of concern because the current criteria could be met by 7,500 branches rather than the existing 11,500 branches. This could lead to many closures in Scotland. The Committee recommends that the Government gives assurances to preserving the existing network of branches. Elements of Outreach Post Offices, which replaced 102 Post Office branches in rural and remote parts of Scotland, are not sufficiently robust or reliable to provide an adequate service, according to the Committee, and it fears the new Post Office Local risks downgrading the service further. Improvements should be delivered as a matter of urgency.
