Die Alchemie der Gefühle      Sep 05 2020 Der Weg zu emotionaler Souveränität Im Inneren eines jeden von uns verbirgt sich ein Ozean voller Gefühle, Erinnerungen und Träume - aber auch voller Ängste, Groll und Enttäuschungen. Diese können, wenn sie unbewusst bleiben, unser Denken und Handeln auf zerstörerische Weise beeinflussen. Daniel Siegel, ein Pionier auf dem Feld der Neurowissenschaften, hat in 25-jähriger Forschungsarbeit eine therapeutisch einsetzbare Methode entwickelt, mit deren Hilfe wir eine klarere Sicht auf unsere eigene Innenwelt und die unserer Mitmenschen erlangen. Er nennt sie Mindsight. Einfühlsam und anhand vieler Fallgeschichten führt er uns auf eine faszinierende Reise durch die Welt unserer Emotionen und zeigt, wie wir mithilfe von Mindsight Traumata aus der Vergangenheit heilen und die Gegenwart glücklicher gestalten können. Es ist tatsächlich möglich, unser Hirn völlig neu zu »verdrahten«, so dass negative Erfahrungen unser Handeln nicht länger sabotieren. »Die Alchemie der Gefühle« bietet einzigartiges psychologisches Handwerkszeug, um unsere emotionale und soziale Intelligenz nachhaltig zu steigern. Ein Buch, das die Art und Weise, wie wir über uns denken, verändern wird.

On a Global Mission: The Automobiles of General Motors International Volume 3      Mar 24 2022 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Bajun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.
