Horse Training In-Hand Mar 29 2020

Working the horse from the ground—schooling "in-hand" as it has been known for centuries—has long been an integral part of classical horse training. Now, this gorgeously illustrated book explains in clear, step-by-step lessons how the modern-day horse owner can incorporate classical groundwork in her daily interactions with her equine partner—to both their benefit and enjoyment. Whether schooling green or young horses; retraining problem horses or those with poor foundations; warming-up advanced mounts prior to workouts; confirming lateral movements on the

ground before attempting them on horseback; or supplementing everyday under-saddle exercises, work in-hand provides a wonderful way to advance the horse's education, as well as the standard of communication between horse and handler. Its gradual progression of work on the longe, double-longe, long lines, short reins, and long reins is the perfect addition to the training program that has grown a little stale or boring; the manageable solution to countless problems that commonly arise in daily work with horses; and by definition, an equestrian art form unto itself. With over 100 color photographs—including many detailed series shots—to demonstrate correct body positioning, and meticulously hand-drawn illustrations to guide you through the often-confusing land of lateral work, *Horse Training In-Hand* is the first book ever to help shed classical groundwork's mystique while conscientiously preserving its magic. Find out for yourself how schooling in-hand can give your training program a brand new look and feel, forever transforming "workouts" and "schooling sessions" into artistic endeavors that yield breathtaking results.

An Army of Stories Jun 19 2019 Private First Class R was an excellent soldier so it was unlike him to be late. When he came in a few minutes later I could see by the grim look on his face that something was terribly wrong. He immediately began to cry and tell me that his wife had miscarried the child they had so badly wanted. I had never seen anyone cry as much as he did that morning and one box of tissues simply was not enough. After a while, the front of his uniform was soaked from his many tears, and I felt horrible seeing him suffer. It was one of those times when I would have moved Heaven and Earth if I could have but I could not. It humbled me because I wanted to order someone to do something to fix the problem, but this time it would not be that simple. I had always taken pride in looking out for the welfare of the soldiers in my charge but this time was different; I knew I was not a miracle worker but I felt I had let him down because as much as I wanted to, I did not have the power to bring back his baby. It was the worst day of my Army career because a good soldier who looked up to me for wisdom and guidance was in peril, and there was nothing I could do. I felt like a weakened Superman hopelessly dragging

his feet through a field of Kryptonite, because there I was with all my rank and power that the Army had entrusted in me, but I was useless to him.

MIA Rescue Oct 24 2019 "This is an inspiring story of courage and sacrifice--one hell of an exciting true war story!" --Kenn Miller Author of *Tiger the Lurp Dog* On 17 June 1970, in Mondol Kiri Province, Cambodia, the five men of Long-Range Reconnaissance Patrol (LRRP) Team 5-2 were about to halt for the day. Night was coming, the skies were dark, and so were the men's thoughts--they'd just found freshly dug NVA bunkers inside a scrub-brush tree line and their position was not secure. As they carefully searched for better night lager, they learned the hard way that they had walked into an ambush kill zone: NVA fire quickly downed two men and wounded two others. In minutes, Team 5-2 had been transformed from the hunters to the hunted. They had no radio comms with their headquarters and had just two rifles and fifteen magazines of ammunition. Two men were down, but the team was not out. MIA RESCUE is the story of Team 5-2 and the heroic and ultimately successful attempts to rescue them despite extraordinarily bad weather and an angry and aware enemy. "Seldom can an author stimulate emotions, from the taste of fear to sweaty palms to the feeling of relief when the mission is over, but Jorgenson does and much more. If the reader was never in combat, he will feel like a Nam vet when he finishes this book." --Jerry Boyle Author of *Apache Sunrise*

A Pillar of Fire by Night May 31 2020 Book #7 in the popular Carrera military science fiction series. Carrera's held off his enemies coming by sea from the north, in the process dealing the naval and amphibious forces of the Zhong Empire a stinging defeat. The Zhong won't soon forget the blood-stained waters and the heaped up bodies on the shores of Balboa's Isla Real. Now, though, his adopted country of

Balboa is under assault from the east, from the south, from the west, from the air, and from space. The Zhong, smarting from the butchery around the island, have bounced back and forced a lodgment east of the capital. Their lodgment is still a-building but when it is done Carrera can expect several hundred thousand brave and determined Zhong to show up on his barely defended flank. The Taurans, remembering their military roots, have assaulted Balboa from the south, taking half the area of, and cutting, the Transitway that joins Terra Nova's Mar Fusioso and her Shimmering Sea. In the process, they've cut off and besieged the second city of the country, Cristobal, trapping inside the city Carrera's Fourth Corps, and overrunning and capturing a large portion of Carrera's artillery train. West of Cristobal, the Taurans have created, almost from scratch, a series of small ports and airfields to support their siege. Inside the town, a sense of desperation is growing among the men and women of the Fourth Corps: Has their leader forgotten about or abandoned them? Meanwhile another Tauran Expeditionary force secures Balboa's eastern neighbor, Santa Josefina, as a base against them. In space, the United Earth Peace Fleet, under the Command of High Admiral Marguerite Wallenstein, keeps as low a profile as possible, all the time spying and feeding intelligence to both Zhong and Tauran. It's beginning to look like the game is up for Balboa and Patricio Carrera. But Carrera's been planning this war for fifteen years. He certainly hopes his enemies think they're winning. blow to big brother USA and the Marshal Plan, Taiwan had effectively expelled the US-UN forces from its soil; Taipei, its military paralleled to that of the Japanese, declared itself free from big brother USA and UN's supremacy, authority and sphere of influence. The Chinese had productively formed the Communist Asian Pack with Japan and Taiwan; the three communist countries and communist North Korea, forming the CAP, were strongly behind Pyongyang and its passion of turning South Korea into a communist country and reuniting the North and South to outline Seoul and Pyongyang into one Korea--a Communist Korea; once Seoul fell to Pyongyang, China had guaranteed Taipei 150-years of independence--free from China's sphere of influence and authoritarianism. That was what the Taiwanese have wanted for years, independence from mainland China, a package that was too good to pass on, a promise that big brother USA-UN cannot proffer. PS, the Preventive Maintenance Monthly Oct 16 2021 The Preventive Maintenance Monthly is an official publication of the Army, providing information for all soldiers assigned to combat and combat duties. The magazine covers issues concerning maintenance, maintenance procedures and supply problems. *A Different Path* Sep 15 2021 After graduating from the United States Military Academy and being commissioned a 2nd Lieutenant, Neal Creighton spent his first five years in the Army

in troop assignments in the United States and in Germany. When his Armored Cavalry Regiment returned to the United States in the fall of 1957, they found themselves at Fort Knox, Kentucky. It is at this point that the author begins his story of a 26-year period covered in the pages of this book. At Fort Knox, he meets Jo Ann Hicks, an employee of the U.S. Army Armored School. They become engaged three months after meeting. The marriage ceremony takes place on August 1st, 1958, at Jo Anns familys church. After a month long honeymoon Neal and Jo Ann return to Fort Knox where they live in their first government supplied family quarters, Jo Ann goes back to her job, and Neal becomes a student for a nine months long class at the Armored School. In the chapter on their time at Fort Knox, the author describes the life style of the typical young Army family living on a military post in the 1950s. Not long into the school year, they are told they will be going to Spain for a year where Neal will study Spanish in preparation for then returning to West Point where he will teach the language. Once in Spain, both Creightons initially attend a university in north Spain. In the fall, they return to Madrid where Neal continues as a student and Jo Ann takes a job with a U.S. Central Intelligence Agency office. During the year, they travel extensively throughout Spain and Portugal. At the end of their time in Spain, they make a month long trip beginning in North Africa, passing through France, Italy, Austria and both East and West Germany. From 1960 to 1963, Neal has his tour as a member of the Military Academy faculty. The Superintendent of the Academy is Major General William Westmoreland and Neal becomes one of Westmorelands tennis playing partners. Jo Ann returns to work as a government employee. However, after a year, she becomes pregnant and leaves the workforce. Unfortunately, she loses the baby while Neal is traveling in Mexico. After she recovers, the Creightons decide to adopt. Shortly before their three years at West Point are up, they succeed in adopting a six-week old daughter whom they name Linda. Several months later, they are informed that their next assignment will be to the Dominican Republic where Neal will be tasked with helping the Dominicans start a Military Academy. Not long before they depart, Jo Ann learns she is once again pregnant. Arriving in the Dominican Republic in the summer of 1963, the Creightons quickly find a house to rent and Neal begins his work. At this time, the Dominican Republic is trying to recover from decades of domination of dictator Raphael Trujillo, who had been assassinated in 1961. Neal has an early meeting with Dominican President Juan Bosch. In September, a worried Bosch consults Neal about the situation at San Isidro where the Academy is located. Shortly after that, Bosch is overthrown by Neals Dominican boss. The U.S.

breaks relations with the new Dominican Government and orders all its diplomats and military out of the country. Before this evacuation takes place, Neal becomes seriously ill and is evacuated to the U.S. Army hospital in Puerto Rico. Jo Ann accompanies Neal because of the seriousness of his illness. Meanwhile, back in the Dominican Republic, the Americans are evacuated by boat, leaving little nine months old Linda in the Creighton house in Santo Domingo alone with the two maids. Jo Ann returns to reclaim her daughter now not an easy process. Finally, Linda and Jo Ann do get aboard a plane for Puerto Rico where they meet Puerto Rican baseball legend Roberto Clement who then helps the Creightons while they remain in San Juan. The next stop for the Creightons is the Panama Canal Zone. They are soon caught up in the serious anti-US riots of January 9, 1964 and are lucky to escape without injury. At work, Ne

Horse Training In-hand Jan 27 2020 This book sets out to show you that lightness in hand can be achieved by every horse. For some horses it is easy, due to conformation and a general aptitude for focusing intently on the challenges of being trained. For others, it is not so. However, if the training is undertaken slowly, with gentleness and respect, lightness in the hand is eventually possible. A supple, flexible horse whose back and entire body is strong and correctly collected to support the rider's weight, is balanced and ready for the demands of any movement laterally or vertically. A horse that is light in hand is proof of the highest order that the will of the rider and horse are truly one. Simply, lightness is born of trust. Ellen Schuthof's training of horses is different from other trainers, in that it emphasizes first the comfort, security and happiness of the horse. She stages short lessons to engage the horse's attention and cooperation. If the horse becomes confused, she immediately asks him to 'go back in time' to a point where he has mastered a task, and asks him to perform that task so as to restore his confidence. The horse finishes the short lesson unstressed, full of enthusiasm and pride in his new accomplishments, and with an ever deepening bond with his trainer.
