Contemporary Islamic Discourse in the Malay-Indonesian World

Jun 23 2019 While many books have probed the role of Islam in political

and social change in Southeast Asia over the past three decades, few have focused on the power of the religious discourse itself in shaping this transformation.

Contemporary Islamic Discourse in the Malay-Indonesian World captures the interplay between religion and social thought in comparative case studies from Malaysia, Indonesia and Singapore.

Drawing on a critical sociology of knowledge and a profound understanding of historical contexts, the central focus is on Muslim intellectuals who have grappled with the impact of modernity in these societies.

The discussion deals successively with the role of religious traditionalism, the upsurge of dakwah revivalism and the public sphere, attitudes towards democracy and pluralism, and finally the ideas advanced by liberal Islam and its opponents. Above all, Azhar Ibrahim offers the reader a creative way of understanding the modern Islamic discourse and its relationship to the remaking of society at large. When Muhammad died in 632 without a male heir, Sunnis contended that the choice of a successor should fall to his closest companions, but Shi'a believed that God had inspired the Prophet to appoint his cousin and son-in-law, Ali, as leader. So began a schism that is nearly as old as Islam itself. Laurence Louër tells the story of this ancient rivalry, taking readers from the last days of Muhammad to the political and doctrinal clashes of Sunnis and Shi'a today. In a sweeping historical narrative spanning the Islamic world, Louër shows how the Sunni-Shi'a divide was never just a dispute over

succession—at issue are questions about the very nature of Islamic political authority. She challenges the widespread perception of Sunnis and Shi'a as bitter enemies who are perpetually at war with each other, demonstrating how they have coexisted peacefully at various periods throughout the history of Islam. Louër traces how sectarian tensions have been inflamed or calmed depending on the political contingencies of the moment, whether to consolidate the rule of elites, assert clerical control over the state, or defy the powers that be. Timely and provocative, Sunnis

and Shi'a provides needed perspective on the historical roots of today's conflicts and reveals how both branches of Islam have influenced and emulated each other in unexpected ways. This compelling and accessible book also examines the diverse regional contexts of the Sunni-Shi'a divide, examining how it has shaped societies and politics in countries such as Iraq, Pakistan, Saudi Arabia, Iran, Yemen, and Lebanon. *Muslims against the Muslim League* Jun 03 2020 "Discusses the dynamics of the Indian freedom movement during the 1940s from the perspective of a Hindu

für eine neue Qualität und Virulenz des Antisemitismus kann jedoch nicht nur der islamistische Antisemitismus gesehen werden, sondern auch die Zunahme von Antisemitismus in politisch und sozial arrivierten Kreisen und Milieus. Zugleich ist die Hemmschwelle für die Äußerung und Akzeptanz antisemitischer Ressentiments gesunken, sofern diese als „Israelkritik“ camoufliert sind. Parallel zu diesen Entwicklungen stellte der Antisemitismus sein Mobilisierungspotential für den politischen Protest auf der Straße unter Beweis, etwa

This volume offers a unique approach to the study of Ibn Taymiyya, by offering an English translation of his fundamental political treatise, The Office of Islamic Government, and shorter collections from The Collected Fatwas and The Prophetic Way, and Islamic Governance in Reconciling between the Ruler and the Ruled. The volume not only sheds light on these primary sources through translation and annotation, but also offers a theoretical analysis of Ibn Taymiyya's thought and how his legal views can be reconciled with

current trends in Islamic political theory. The analysis provides an overview of Ibn Taymiyya's geopolitical context, and includes an original study of his normative political thought. In examining the contemporary implications of Ibn Taymiyya's political theology, the authors explore his doctrine of the Islamic state in the context of Islamic decolonial theory. Islam and the State in Ibn Taymiyya will appeal to academics in the fields of political science and religious studies, particularly within the field of Islamic history. Making of Islamic Revivalism Aug 30

2022 Nasr examines the life and thought of Mawlana Mawdudi, one of the first and most important Islamic ideological thinkers. Mawdudi was the first to develop a modern political Islamic ideology, and a plan for social action to realize his vision. The prolific writings and indefatigable efforts of Mawdudi's party, the Jamaat-i-Islami, first in India and later in Pakistan, have disseminated his ideas far and wide. His views have informed revivalism from Morocco to Malaysia. Nasr discerns the events that led Mawdudi to a revivalist

perspective, and probes the structure of his thought, in order to gain fresh insights into the origins of Islamic revivalism. He argues that Islamic revivalism did not simply develop as a cultural rejection of the West, rather it was closely tied to questions of communal politics and its impact on identity formation, discourse of power in plural societies, and nationalism. Mawdudi's discourse, though aimed at the West, was motivated by Muslim-Hindu competition for power in British India. His aim, according to Nasr, was to put forth a view of Islam whose invigorated, pristine, ~~Download File~~

uncompromising outlook would galvanize Muslims into an ideologically uniform and hence politically indivisible community. In time, this view developed a life of its own and evolved into an all-encompassing perspective on society and politics, and has been a notable force in South Asia and Muslim life and thought across the Muslim world.

Notably, two of these articles are drawn from the AJIS symposium on Maqāṣid whose first set of essays were featured in the previous issue (38:3-4) dedicated to the topic. In the first article, “Agents of Grace,” Ali Altaf Mian develops a sophisticated and nuanced reading of “intentionality” in the work of the moral theologian al-Ghazali. Mian reads the latter’s work to disclose ethical action as a site of contingency and ambivalence, indeed of the subject’s “non-sovereignty.” He contributes this theorization of intentionality as a constructive critique of accounts of ethical agency in

the anthropology of Islam. In the second article, “No Scholars in the West,” Emily Goshey carefully unpacks the ostensible paradox by which Western Salafis who studied in the Muslim world are not seen as “scholars” by the very communities they lead. What then comprises religious authority and scholarship within these models of knowledge transmission? Goshey tracks the dynamics of scholarship and community leadership based on fieldwork with African American Salafi affiliate communities in Philadelphia. In the third article, “Maqāṣidi Models

Medical Ethics,” Aasim Padela presents a typology of maqāṣid-based approaches to medical ethics. Whether requiring a field-based redefinition, a conceptual extension, or a text-based postulation of the classical maqāṣid theory, however, Padela shows that these frameworks remain woefully underdeveloped to offer appropriate and sufficient guidance for pressing bedside cases. In the fourth article, “Developing an Ethic of Justice,” Thahir Jamal Kiliyamannil offers a creative rereading of new Muslim movements in South India. Rather than relying on old typologies

about political Islam or secularized activists, he considers the Solidarity Youth Movement to articulate an Islamic ethic of justice inspired by Abul A’la Maududi. This case study shows not only how the maqāṣid framework may inform discourses well beyond the domains of legal practice, but also how this specific articulation of political justice is based in the praxis of the Indian Muslim minority. These four articles and the remaining elements of the issue foreground contemporary contestations of Islamic authority. Read together, they also offer a set of terms for thinking

Each country has followed a unique historical trajectory with regard to crafting democratic institutions to deal with such extreme diversity. The volume focuses on three core themes: historical trends before the modern state's emergence that had lasting effects; the genealogies of both the state and religion in politics and law; and the problem of violence toward and domination over religious out-groups. editors Karen Barkey, Sudipta Kaviarj, and Vatsal Naresh have gathered a group of leading scholars across political science, sociology, history, and law to examine this multifaceted topic. Together, they illuminate various trajectories of political thought, state policy, and the exercise of social power during and following a transition to democracy. Just as importantly, they ask us to reflexively examine the political categories and models that shape our understanding of what has unfolded in South Asia and Turkey.

identity. During the precolonial era, Bengali, the dominant regional language, infused the richly diverse traditions of the region, including Hinduism, Buddhism, and, eventually, the Islamic religion and literature brought by Urdu-speaking Muslim conquerors from North India. Islam was not simply imported into the region by the ruling elite, Uddin explains, but was incorporated into local tradition over hundreds of years of interactions between Bengalis and non-Bengali Muslims. Constantly contested and negotiated, the Bengali vision of Islamic orthodoxy

and community was reflected in both language and politics, which ultimately produced a specifically Bengali-Muslim culture. Uddin argues that this process in Bangladesh is representative of what happens elsewhere in the Muslim world and is therefore an instructive example of the complex and fluid relations between local heritage and the greater Islamic global community, or umma.
