*Digital Communication. Towards a Smart and Secure Future Internet* Nov 05 2022 This book constitutes the proceedings of the 28th International Tyrrhenian Workshop on Digital Communication, TIWDC 2017, which took place in Palermo, Italy, in September 2017. The 18 papers presented in this volume were carefully reviewed and selected from 40 submissions. They were organized in topical sections named: biometric systems; emerging services with Network Function Virtualization (NFV); multimedia forensics; security protocols; software defined networks; and technologies for Internet of Things (IoT).

**e-Health Systems** Oct 04 2022 e-Health Systems: Theory, Advances and Technical Applications offers a global vision of all the parties involved with e-health system deployment and its operation process, presenting the state of the art in major trends for improving healthcare quality and efficiency of healthcare management. The authors focus on ICT technologies and solutions for health management and healthcare applications, specifically emerging ICT to help reduce costs and improve healthcare quality, and healthcare trends in consumer empowerment and information-rich "Smart Care", with ubiquitous care access from anywhere, at any time, by any authorized person(s) when needed. Split into two parts, this book provides a comprehensive introduction to the concepts of e-health and delves into the processes carried out to store information, as well as the standards that are used; the authors explore applications and implementation of e-health systems, explaining in depth the types of wireless networks and security protocols employed to convert these systems into robust solutions avoiding any kind of data corruption and vulnerabilities. Presents e-Health from implementation at the physical level, to the communication level between different systems and sensors Considers all process security methods and the most relevant related standards Suitable for students, academics, researchers, and professionals involved in applications to improve health management and eHealth systems

Digital Forensics and Cyber Crime Sep 03 2022 This book constitutes the refereed proceedings of the 9th International Conference on Digital Forensics and Cyber Crime, ICDF2C 2017, held in Prague, Czech Republic, in October 2017. The 18 full papers were selected from 50 submissions and are grouped in topical sections on malware and botnet, deanonymization, digital forensics tools, cybercrime investigation and digital forensics triage, digital forensics tools testing and validation, hacking

**The Car Book** Feb 02 2020 A lavishly illustrated history of the automobile - the marques, the machines, and the magic. From the first motor cars to today's supercars and environmentally-friendly electric models, this is the ultimate ebook about the history of the car. Includes stunning photography, and featuring more than 2,000 cars, The Car Book shows you how cars

have evolved around the world over the last 130 years, and their impact on society as objects of curiosity, symbols of status and luxury, and items of necessity. Extensive catalogues showcase the most important marques and models, organized in categories such as sports cars, convertibles, and city compacts. The ebook also features virtual photographic tours of some of the most iconic cars from each era, such as the Rolls Royce Silver Ghost, Ford Model T, Lamborghini Countach, and McLaren Speedtail, while cross-sections of key engines explore the driving force behind them. Lavishly illustrated feature spreads detail the stories of the individuals, machines, and visionary ideas that helped create the car world's most famous marques and made brands such as Porsche, Mercedes-Benz, Aston Martin, and Cadillac household names. If you love cars, then you'll love *The Car Book*. It is simply a must-have title for all motoring enthusiasts.

*Proceedings of the Future Technologies Conference (FTC) 2018* Dec 26 2021 The book, presenting the proceedings of the 2018 Future Technologies Conference (FTC 2018), is a remarkable collection of chapters covering a wide range of topics, including, but not limited to computing, electronics, artificial intelligence, robotics, security and communications and their real-world applications. The conference attracted a total of 503 submissions from pioneering researchers, scientists, industrial engineers, and students from all over the world. After a double-blind peer review process, 173 submissions (including 6 poster papers) have been selected to be included in these proceedings. FTC 2018 successfully brought together technology geniuses in one venue to not only present breakthrough research in future technologies but to also promote practicality and applications and an intra- and inter-field exchange of ideas. In the future, computing technologies will play a very important role in the convergence of computing, communication, and all other computational sciences and applications. And as a result it will also influence the future of science, engineering, industry, business, law, politics, culture, and medicine. Providing state-of-the-art intelligent methods and techniques for solving real-world problems, as well as a vision of the future research, this book is a valuable resource for all those interested in this area.

*test Jahrbuch 2022* Sep 10 2020 Der objektive Einkaufsberater der Stiftung Warentest. Das "test Jahrbuch 2022" versammelt mehr als 100 detaillierte Tests mit überraschenden Ergebnissen zu Produkten und Angeboten für alle Lebenslagen – übersichtlich sortiert nach Themenbereichen. Mit umfangreichen Verzeichnissen von Anbietern und Service-Adressen. Sparen Sie bares Geld und lassen Sie sich von unabhängigen Experten beim Kauf beraten.

**Alfa Romeo Giulia GT & GTA** Jun 07 2020 Here is a fact and picture-packed book dedicated solely to the Giulia GT in all its forms including the fabulous lightweight GTA racer. Now an updated, large format third edition which includes over 100 new images and which is limited to 1500 copies.

Universal Access in Human-Computer Interaction: Universal Access to Information and Knowledge Aug 02 2022 The four-volume set LNCS 8513-8516 constitutes the refereed proceedings of the 8th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2014, held as part of the 16th International Conference on Human-Computer Interaction, HCII 2014, held in Heraklion, Crete, Greece in June 2014, jointly with 14 other thematically similar conferences. The total of 1476 papers and 220 posters presented at the HCII 2014 conferences was carefully reviewed and selected from 4766 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 251 contributions included in the UAHCI proceedings were carefully reviewed and selected for inclusion in this four-volume set. The 65 papers included in this volume are organized in the following topical sections: access to mobile interaction; access to text, documents and media; access to education and learning; access to games and ludic engagement and access to culture.

Global Security, Safety and Sustainability: The Security Challenges of the Connected World May 31 2022 This book constitutes the refereed proceedings of the 11th International Conference on Global Security, Safety and Sustainability, ICGS3 2017, held in London, UK, in January, 2017. The 32 revised full papers presented were carefully reviewed and selected from 74 submissions. The papers are organized in topical sections on the future of digital forensics; cyber intelligence and operation; information systems security management; systems security, safety, and sustainability; cyber infrastructure protection.

*Innovations, Developments, and Applications of Semantic Web and Information Systems* Jul 09 2020 In the last few years, there has been an increased advancement and evolution in semantic web and information systems in a variety of fields. The integration of these approaches to

ontology engineering, sophisticated methods and algorithms for open linked data extraction, and advanced decision-making creates new opportunities for a bright future. Innovations, Developments, and Applications of Semantic Web and Information Systems is a critical scholarly resource that discusses integrated methods of research and analytics in information technology. Featuring coverage on a broad range of topics, such as cognitive computing, artificial intelligence, machine learning, data analysis, and algorithms, this book is geared towards researchers, academicians, and professionals seeking current information on semantic web and information systems.

**Buku Pintar Gadget Android untuk Pemula** Dec 14 2020 Android merupakan Sistem operasi yang berbasis Linux untuk telepon seluler seperti telepon pintar dan komputer tablet. Android tersedia juga platform terbuka bagi para pengembang, untuk menciptakan aplikasi mereka sendiri untuk digunakan oleh bermacam perangkat bergerak. Dalam buku terbitan KUNCI KOMUNIKASI ini, anda akan mengetahui secara detail tentang Android, beserta jenis-jeninnnya. Bukan hanya itu saja yang terdapat dalam buku ini, disertai bagaimana anda merubah tampilan dalam android. Tidak salah lagi kalau buku ini bisa dijadikan sebagai buku Koleksi yang pasti berguna kapan saja ketika kamu membutuhkannya. -Lembar Langit Indonesia Group-

**Mobile Computing and Wireless Networks: Concepts, Methodologies, Tools, and Applications** Mar 05 2020 We live in a wireless society, one where convenience and accessibility determine the efficacy of the latest electronic gadgets and mobile devices. Making the most of these technologies—and ensuring their security against potential attackers—requires increased diligence in mobile technology research and development. Mobile Computing and Wireless Networks: Concepts, Methodologies, Tools, and Applications brings together a comprehensive range of voices and research in the area of mobile and wireless technologies, exploring the successes and failures, advantages and drawbacks, and benefits and limitations of the technology. With applications in a plethora of different research and topic areas, this multi-volume reference work benefits researchers, service providers, end-users, and information technology professionals. This four-volume reference work includes a diverse array of chapters and authors covering topics such as m-commerce, network ethics, mobile agent systems, mobile learning, communications infrastructure, and applications in fields such as business, healthcare, government, tourism, and more.

**New Trends in Software Methodologies, Tools and Techniques** Jan 15 2021 Software has become an essential enabler for science and the economy. Not only does it create new markets and the possibility of a more reliable, flexible and robust society, it also empowers our exploration of the world in ever increasing depth. However software often falls short of our expectations, with current methodologies, tools and techniques remaining insufficiently robust and reliable for constantly changing and evolving needs. This book presents papers from the 15th International Conference on New Trends in Intelligent Software Methodology Tools and Techniques (SoMeT 16), held in Larnaca, Cyprus, in September 2016. The SoMeT conference focuses on exploring the innovations, controversies and challenges facing the software engineering community, bringing together theory and experience to propose and evaluate solutions to software engineering problems with an emphasis on human-centric software methodologies, end-user development techniques, and emotional reasoning, for an optimally harmonized performance between the design tool and the user. The book is divided into six chapters covering the following areas: decision support systems; software methodologies and tools; requirement engineering; software for biomedicine and bioinformatics; software engineering models, and formal techniques for software representation; and intelligent software development and social networking. The book explores new trends and theories which illuminate the direction of developments in the field, and will be of interest to all in the software science community.

**Strategies for Managing Uncertainty** Oct 31 2019 Explains how energy industry firms have hedged their bets by using paradoxical strategies to cope with the uncertainty around energy prices and climate change.

**Sustainable Wildlife Management - Unasylva 249** Jul 01 2022 Wildlife management is the focus of considerable international debate because of its importance for biodiversity conservation, human safety, livelihoods and food security. Local people have been managing wildlife for millennia, including through hunting. Sufficient examples are presented in this edition to show that sustainable wildlife management is also feasible in the modern era. In some cases, a sustainable offtake – by local people, trophy hunters and legitimate wildlife traders – is proving vital to obtain local buy-in to wildlife management and to pay the costs of maintaining habitats. No doubt the debate will continue on the best ways to manage wildlife; this edition of Unasylva is a contribution to that.

**Безопасный Android: защищаем свои деньги и данные от кражи** Aug 22 2021 Рассмотрены различные способы обеспечения безопасности Android-устройств: шифрование персональной информации, хранящейся на устройстве, шифрование передаваемых данных, VPN-соединения, анонимизация трафика, выбор и использование антивируса и брандмауэра, поиск потерянного или украденного устройства, экономия трафика, защита от спама, получение прав root . Уделено внимание вопросам личной и семейной безопасности (ограничение доступа ребенка к определенным ресурсам/программам, отслеживание телефона ребенка и т.д.). Практически все рассмотренное в книге программное обеспечение бесплатное, поэтому книга поможет не только защитить ваше устройство, но и сэкономить деньги.

Porsche High-Performance Driving Handbook Jul 29 2019

Stickier Marketing Dec 02 2019 In Sticky Marketing Grant Leboff argued that the old marketing system of shouting messages at people was finished, replaced by providing value around your product or service: brands needed to become sticky. This new edition of Sticky Marketing, Stickier Marketing, remains a complete guide to producing effective marketing communications in a world of consumers empowered by new digital technology who do not want to be shouted at but engaged with. It shows readers how providing return on engagement, rather than return on investment, and a customer engagement point, rather than a unique selling point, is what will make the difference in today's cluttered marketing place. Updated throughout, this new edition also includes brand new chapters on content marketing, discovery and mobile marketing.

Der lange Weg zur Freiheit Jun 19 2021 »Ich bin einer von ungezählten Millionen, die durch Nelson Mandelas Leben inspiriert wurden.« Barack Obama Eine fast drei Jahrzehnte währende Gefängnishaft ließ Nelson Mandela zum Mythos der schwarzen Befreiungsbewegung werden. Kaum ein anderer Politiker unserer Zeit symbolisiert heute in solchem Maße die Friedenshoffnungen der Menschheit und den Gedanken der Aussöhnung aller Rassen wie der ehemalige südafrikanische Präsident und Friedensnobelpreisträger. Auch nach seinem Tod finden seine ungebrochene Charakterstärke und Menschenfreundlichkeit die Bewunderung aller friedenswilligen Menschen auf der Welt. Mandelas Lebensgeschichte ist über die politische Bedeutung hinaus ein spannend zu lesendes, kenntnis- und faktenreiches Dokument menschlicher Entwicklung unter Bedingungen und Fährnissen, vor denen die meisten Menschen innerlich wie äußerlich kapituliert haben dürften.

**Android для пользователя. Полезные программы и советы. 2 изд.** May 19 2021 Рассмотрены самые интересные, полезные и наиболее популярные среди отечественных пользователей Android-приложения. Даны советы, как превратить Android-устройство в пульт дистанционного управления компьютером, организовать видеосъемку, загружать торренты, избавиться от рекламы в приложениях, экономить трафик, продлить жизнь аккумулятора и многое другое. Некоторые приложения, описанные в книге, требуют полномочий root, получению которых посвящена отдельная глава. Особое внимание уделено созданию своих собственных Android-приложений без знания языков программирования и рассмотрен проект App Inventor, позволяющий создавать приложения исключительно визуальными средствами. Во втором издании описаны новинки последних версий Android и новые программы MX Player, Яндекс.Метро, ES Проводник, One Click Root, рассмотрена публикация видео на YouTube, печать на беспроводном принтере, активация безопасного режима, отладка приложений по USB и многое другое.

**Multimedia Communications, Services and Security** Nov 24 2021 This volume constitutes the refereed proceedings of the 8th International Conference on Multimedia Communications, Services and Security, MCSS 2015, held in Krakow, Poland, in November 2015. The 16 full papers included in the volume were selected from 39 submissions. The papers cover ongoing research activities in the following topics: multimedia services; intelligent monitoring; audio-visual systems; biometric applications; experiments and deployments.

Commercial Directory Sep 30 2019

**Ad-hoc, Mobile, and Wireless Networks** Feb 25 2022 This book constitutes the proceedings of the 15th International Conference on Ad Hoc Networks and Wireless, ADHOC-NOW 2016, held in Lille, France in July 2016. The 23 full papers presented together with one short paper in this volume were carefully reviewed and selected from 64 submissions. The contributions are organized in topical sections named: resource allocation, theory and communications, PHY/MAC/routing in sensors/IoT, DTN/opportunistic networks, sensors/IoT, security, VANET and ITS, and robots and MANETs.

**Control Strategies for Advanced Driver Assistance Systems and Autonomous Driving Functions**

Mar 17 2021 This book describes different methods that are relevant to the development and testing of control algorithms for advanced driver assistance systems (ADAS) and automated driving functions (ADF). These control algorithms need to respond safely, reliably and optimally in varying operating conditions. Also, vehicles have to comply with safety and emission legislation. The text describes how such control algorithms can be developed, tested and verified for use in real-world driving situations. Owing to the complex interaction of vehicles with the environment and different traffic participants, an almost infinite number of possible scenarios and situations that need to be considered may exist. The book explains new methods to address this complexity, with reference to human interaction modelling, various theoretical approaches to the definition of real-world scenarios, and with practically-oriented examples and contributions, to ensure efficient development and testing of ADAS and ADF. Control Strategies for Advanced Driver Assistance Systems and Autonomous Driving Functions is a collection of articles by international experts in the field representing theoretical and application-based points of view. As such, the methods and examples demonstrated in the book will be a valuable source of information for academic and industrial researchers, as well as for automotive companies and suppliers.

**Electric and Plug-in Hybrid Vehicle Networks** Apr 17 2021 This book explores the behavior of networks of electric and hybrid vehicles. The topics that are covered include: energy management issues for aggregates of plug-in vehicles; the design of sharing systems to support electro-mobility; context awareness in the operation of electric and hybrid vehicles, and the role that this plays in a Smart City context; and tools to test and design massively large-scale networks of such vehicles. The book also introduces new and interesting control problems that are becoming prevalent in the EV-PHEV's context, as well as identifying some open questions. A particular focus of the book is on the opportunities afforded by networked actuation possibilities in electric and hybrid vehicles, and the role that such actuation may play in air-quality and emissions management.

Ward's Automotive Yearbook Aug 10 2020 Includes advertising matter.

**Eigenschaftsbasierte Fahrzeugkonzeption** Feb 13 2021 Janna Hahn entwickelt eine Methodik, Eigenschaftswerte von Fahrzeugkonzeptionsparametern über statistische Beziehungen, technische Relationen und Erfahrungswerte zu ermitteln. Sie zeigt, dass die Festlegung weniger konzeptbestimmender Fahrzeugeigenschaften genügt, um so zielgerichtet ganzheitliche und konsistente Fahrzeuggrobkonzepte zu erstellen. Insbesondere unterstützt das kumulierte Auslegungswissen aus den statistischen Beziehungen die Erschließung neuer Wirkzusammenhänge zwischen Fahrzeugparametern. Die Methodik der Autorin ermöglicht dem Anwender dadurch schnell erste Fahrzeugkonzeptideen anhand von Fahrzeugeigenschaften erstellen und miteinander vergleichen zu können.

**Popular Science** Oct 12 2020 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

**Fahrwerkhandbuch** May 07 2020 Fahrwerke moderner Pkw stellen je nach Konfiguration eine Kombination mechanischer, hydraulischer, pneumatischer, elektrischer und elektronischer Komponenten dar, wobei sich mit jeder Neuentwicklung der Anteil elektronischer Steuerungs- sowie Regelsysteme erweitert und der Funktionsumfang der fahrdynamischen Eigenschaften zunimmt. Mit Blick auf die Fahrdynamik werden in diesem Band die konventionellen Elemente und deren Zusammenwirken mit mechatronischen Systemen dargestellt. Dabei werden zunächst Grundlagen und Auslegung, danach in besonders praxisnaher Darstellung die Fahrdynamik dargelegt. Es folgen ausführliche Beschreibungen und Erläuterungen der modernen Fahrwerk-Komponenten. Eigene Kapitel widmen sich den Achsen und Prozessen für die Achsenentwicklung. Die Überarbeitung enthält u.a. Aktualisierungen zum autonomen Fahren, zu Elektrofahrwerken aktuellsten Fahrerassistenzsystemen sowie die Zukunftstendenzen im Fahrwerk.
