Letters from My Father Aug 06 2020 As unresolved issues carried from one generation to the next, author Suzanne L. Holko tried to make sense of her family's situation. She began rereading the letters her father, Walter, had written to her while she was attending college forty years earlier. She also began searching for her father's ancestors, connecting her with newfound relatives. In *Letters from My Father*, Holko tells how the intertwining of these events led to a story of understanding, acceptance, forgiveness, and unconditional love. She shares how comprehending the details of her father's life and what unfolded within her search gave light to the generational wounds unintentionally handed down through her father's ancestors. She also reveals how she gained further awareness to the challenges faced within her own life and the obvious parallels within both her father's life and the grandfather she never knew. *Letters from My Father* describes Holko's spiritual journey, the healing that occurred, and the blessings that were gained. She received a renewed understanding of "all in God's timing" and the joy found within acceptance and unconditional love.

The Essential Guide to Writing History Essays Oct 08 2020 The Essential Guide to Writing History Essays is a step-by-step guide to the typical assignments of any undergraduate or master's-level history program in North America. Effective writing is a process of discovery, achieved through the continual act of making choices--what to include or exclude, how to order elements, and which style to choose--each according to the

author's goals and the intended audience. The book integrates reading and specialized vocabulary with writing and revision and addresses the evolving nature of digital media while teaching the terms and logic of traditional sources and the reasons for citation as well as the styles. This approach to writing not only helps students produce an effective final product and build from writing simple, short essays to completing a full research thesis, it also teaches students why and how an essay is effective, empowering them to approach new writing challenges with the freedom to find their own voice.

Clio Among the Muses Sep 18 2021 History helps us understand change, provides clues to our own identity, and hones our moral sense. But history is not a stand-alone discipline. Indeed, its own history is incomplete without recognition of its debt to its companions in the humane and social sciences. In *Clio among the Muses*, noted historiographer Peter Charles Hoffer relates the story of this remarkable collaboration. Hoffer traces history's complicated partnership with its coordinate disciplines of religion, philosophy, the social sciences, literature, biography, policy studies, and law. As in ancient days, when Clio was preeminent among the other eight muses, so today, the author argues that history can and should claim pride of place in the study of past human action and thought. Intimate and irreverent at times, *Clio among the Muses* synthesizes a remarkable array of information. Clear and concise in its review of the companionship between history and its coordinate disciplines, fair-minded in its assessment of the contributions of history to other disciplines and these disciplines' contributions to history, *Clio among the Muses* will capture the attention of everyone who cares about the study of history. For as the author demonstrates, the study of history is something unique, ennobling, and necessary. One can live without religion, philosophy and the rest. One cannot exist without history. Rigorously documented throughout, the book offers a unique perspective on the craft of history.

Teaching History with Big Ideas Apr 13 2021 In the case studies that make up the bulk of this book, middle and high school history teachers describe the decisions and plans and the problems and possibilities they encountered as they ratcheted up their instruction through the use of big ideas. Framing a teaching unit around a question such as 'Why don't we know anything about Africa?' offers both teacher and students opportunities to explore historical actors, ideas, and events in ways both rich and engaging. Such an approach exemplifies the construct of ambitious teaching, whereby teachers demonstrate their ability to marry their deep knowledge of subject matter, students, and the school context in ways that fundamentally challenge the claim that history is 'boring.'

Children of Palestine Apr 01 2020 Palestinian children and young people living both within and outside of refugee camps in the Middle East are the focus of this book. For more than half a century these children and their caregivers have lived a temporary existence in the dramatic and politically volatile landscape that is the Middle East. These children have been captive to various sorts of stereotyping, both academic and popular. They have been objectified, much as their parents and grandparents, as passive victims without the benefit of international protection. And they have become the beneficiaries of numerous humanitarian aid packages which presume the primacy of the Western model of child development as well as the psycho-social approach to intervention. Giving voice to individual children, in the context of their households and their community, this book aims to move beyond the stereotypes and Western-based models to explore the impact that forced migration and prolonged conflict have had, and continue to have, on the lives of these refugee children.

Uncertain Justice Jan 11 2021 The crime genre entered Italy in the late nineteenth century, and if initially Italian authors followed models developed abroad—principally in the United States, England and France—a uniquely Italian brand began to emerge soon. Il giallo, as the crime genre has been known in Italy since the 1930s, proved to be the ideal instrument to confront pressing and often uncomfortable issues which were pertinent to the Italian context: it became a useful tool to restore, symbolically at least, the truth and justice that were, and still are, perceived by a large part of the Italian reading public to be systematically denied in reality. In today's Italy, the crime genre, and particularly its noir sub-genre, narrates so that readers might remember, so that they might take heed and action, turning cognition into an act of resistance against oblivion and of rebellion against injustice. *Uncertain Justice* explores three broad areas that contemporary Italian noir literature appears particularly keen to debate, retrieving them from the silence to which they might otherwise be consigned: unresolved historical and political legacies, the repercussions of which still inform and affect life and practices in the present times; the problematic institution of the family, considered as the bedrock of Italian culture and the founding principle of Italian society, with specific attendant questions of gender politics; and the justice system seen through some of its operators, nominally in charge of putting the wrongs right and frequently accused of preventing this from happening. These explorations are conducted through an analysis of texts published in the last twenty years, which represent an effort to expose and counter injustice through the power of the word. Crime literature authors often revisit recent Italian history in their novels, and genre fiction plays a prominent role in acts of resistance against cover-ups or revisionist views of history. The volume starts with an analysis of this role, through novels that look back at the years of the fascist regime and, more recently, at the period from the anni di piombo onwards. It then considers the contribution made to the giallo and noir genre by women writers, looking at the effects that female practitioners in Italy have had on the ethics and aesthetics of a genre that, in other cultures, has traditionally been firmly conservative. A further section examines novels set in a familial context and looks at a range of family dynamics, expressed in the relationships between mothers and sons, mothers and daughters, large extended families or small nuclear ones. If some of the texts expose the devastating effects of the violence perpetrated "in the name of love," others more positively offer hope, demonstrating how more desirable

options do exist and can be pursued. Finally the volume looks at justice as a system and at its practitioners, as, in an interesting development peculiar to Italy, a significant number of judges, lawyers and senior police officers have recently become involved in crime fiction writing. The concluding chapter investigates the contribution that these "specialists," who have extensive theoretical and technical knowledge in a field which crime fiction routinely frequents, can make to the genre; it also analyses whether these authors, who bring together the moral function of unveiling the truth (prerogative of the investigator) and the social function of rectifying a wrong (prerogative of the upholders of the law), may have a role in forming a more ethically and socially aware Italian citizen.

Histories of Everyday Life Jun 15 2021 Histories of Everyday Life is a study of the production and consumption of popular social history in mid-twentieth century Britain. It explores how non-academic historians, many of them women, developed a new breed of social history after the First World War, identified as the 'history of everyday life'. The 'history of everyday life' was a pedagogical construct based on the perceived educational needs of the new, mass democracy that emerged after 1918. It was popularized to ordinary people in educational settings, through books, in classrooms and museums, and on BBC radio. After tracing its development and dissemination between the 1920s and the 1960s, this book argues that 'history of everyday life' declined in the 1970s not because academics invented an alternative 'new' social history, but because bottom-up social change rendered this form of popular social history untenable in the changing context of mass education. Histories of Everyday Life ultimately uses the subject of history to demonstrate how profoundly the advent of mass education shaped popular culture in Britain after 1918, arguing that we should see the twentieth century as Britain's educational century.

In the spirit of cult film classics like Billy Madison and Wet Hot American Summer, in Do-Over! Hemley

reencounters papier-mâché, revisits his childhood home, and finally attends the prom -- bringing readers the thrill of recapturing a misspent youth and discovering what's most important: simple pleasures, second chances, and the forgotten joys of recess.

Contemporary Italian Narrative and 1970s Terrorism Jan 29 2020 This book is about literary representations of the both left- and right-wing Italian terrorism of the 1970s by contemporary Italian authors. In offering detailed analyses of the many contemporary novels that have terrorism in either their foreground or background, it offers a "take" on postmodern narrative practices that is alternative to and more positive than the highly critical assessment of Italian postmodernism that has characterized some sectors of current Italian literary criticism. It explores how contemporary Italian writers have developed narrative strategies that enable them to represent the fraught experience of Italian terrorism in the 1970s. In its conclusions, the book suggests that to meet the challenge of representation posed by terrorism fiction rather than fact is the writer's best friend and most effective tool.

Hidden History of Boone County, Indiana Dec 10 2020 At the center of Indiana lies Boone County, a seemingly quiet place with a colorful past. The stagecoach along the Michigan Road helped to start the county, then the railroad transformed it as new towns were created along the routes. Some of these towns are now gone, leaving behind a few buildings and a sign marking where they once existed. Local vagabond Thorntown Cyrus entertained area residents with his accordion, a couple touted his and hers tractors, and the Cragun twins met a tragic demise. Mysteries surround true stories such as a rogue monkey seen wandering a community and why a butcher attacked a prominent citizen. Author Heather Phillips Lusk brings these stories and more to life to reveal what makes Boone County unique.

Gardens of Earth Jul 17 2021 Imagine an alien life force that knows your deepest fear, and can use that against you. Corporate greed supported by incompetent surveyors leads to the colonisation of a distant world, ominously dubbed 'Halloween', that turns out not to be uninhabited after all. The aliens, soon called Spooks by military units deployed to protect the colonists, can adopt the physical form of an opponent's deepest fear and then use it to kill them. The colony is massacred and as retaliation the orbiting human navy nuke the planet. In revenge, the Spooks invade Earth. In a last-minute attempt to avert the war, Seethan Bodell, a marine combat pilot sent home from the front with PTSD, is given a top-secret research spacecraft, and a mission to travel into the past along with his co-pilot and secret lover Rose, to prevent the original landing on Halloween and stop the war from ever happening. But the mission goes wrong, causing a tragedy later known as The Sundering, decimating the world and tearing reality, while Seethan's ship is flung into the future. The Spooks win the war and claim ownership of Earth. He wakes, alone, in his ejector seat with no sign of either Rose or his vessel. When he realises that his technology no longer works, his desperation to find Rose becomes all the more urgent - her android body won't survive long in this new Earth. Gardens of Earth is the first book of The Sundering Chronicles. The story tackles alien war, a future that may be considered either dystopian or utopian, depending on who you ask, and a protagonist coping with his demons in an unfamiliar and stressful environment - not to mention immediate threats from a pathological serial killer, the remnants of Earth's inhabitants now living in a sparse pre-industrial society under the watchful eye of the Spooks, and returning human colonists intent on reclaiming Earth. Underlying all this are issues of social justice, human and android rights, and love that transcends difference. In many senses this is classic science fiction, but the abilities of the Spooks provide an environment, and archetypal creatures within it, that are reminiscent of myth and magic fantasy. Truly cross-genre, Gardens of Earth is an exciting adventure, a heart-rending quest, and an eye-opening insight into the coping strategies of a veteran. Cover artwork by Alex Storer

Gather at the Table Feb 21 2022 Two people—a black woman and a white man—confront the legacy of slavery and racism head-on “We embarked on this journey because we believe America must overcome the racial barriers that divide us, the barriers that drive us to strike out at one another out of ignorance and fear. To do nothing is unacceptable.” Sharon Leslie Morgan, a black woman from Chicago's South Side avoids white people; they scare her. Despite her trepidation, Morgan, a descendent of slaves on both sides of her family, began a journey toward racial reconciliation with Thomas Norman DeWolf, a white man from rural Oregon who descends from the largest slave-trading dynasty in US history. Over a three-year period, the pair traveled thousands of miles, both overseas and through twenty-seven states, visiting ancestral towns, courthouses, cemeteries, plantations, antebellum mansions, and historic sites. They spent time with one another's families

and friends and engaged in deep conversations about how the lingering trauma of slavery shaped their lives. Gather at the Table is the chronicle of DeWolf and Morgan's journey. Arduous and at times uncomfortable, it lays bare the unhealed wounds of slavery. As DeWolf and Morgan demonstrate, before we can overcome racism we must first acknowledge and understand the damage inherited from the past—which invariably involves confronting painful truths. The result is a revelatory testament to the possibilities that open up when people commit to truth, justice, and reconciliation. DeWolf and Morgan offer readers an inspiring vision and a powerful model for healing individuals and communities.
