Eerdmans Commentary on the Bible Feb 02 2020 No one familiar with the Bible needs to be told that it is a truly remarkable work. But it takes help to understand this ancient collection of diverse forms of literature written by different people across many centuries. The Eerdmans Commentary on the Bible (ECB) is the finest single-volume Bible handbook available. Written by world-class Bible scholars, the ECB encapsulates in nontechnical language the best of modern scholarship on the sixty-six biblical books plus the Apocrypha. The only one-volume Bible commentary to cover all the texts (even including 1 Enoch) regarded by one or more Christian churches as canonical, the ECB provides reader-friendly treatments and succinct summaries of each section of the text that will be valuable to scholars, students, and general readers alike. The primary objective of this work is to clarify the meaning of each section of the Bible. Rather than attempting a verse-by-verse analysis (virtually impossible in a one-volume work), the ECB focuses on principal units of meaning—narrative, parable, prophetic oracle, section of argument, and so on—highlighting their interconnectedness with the rest of the biblical text. The volume also addresses and answers major issues—including the range of possible interpretations—and refers readers to the best fuller discussions. Beyond providing reliable, informative commentary, this hefty volume also includes thirteen introductory and context-setting articles that do justice to the biblical documents both as historical sources and as scriptures. The sixty-seven contributors to the ECB come from a wide variety of backgrounds and are acknowledged leaders in the field of biblical studies. Their contributions stand out either for their fresh interpretations of the evidence, or for their way of asking new questions of the text, or for their new angles of approach. While the translation of choice is the New Revised Standard Version, many of the contributors offer their own vivid translations of the original Hebrew or Greek. Cutting-edge, comprehensive, and ecumenical, the ECB is both a fitting climax to the rich body of interconfessional work undertaken in the latter part of the twentieth century and a worthy launching pad for biblical study in the twenty-first. **Special Features of the ECB** The only one-volume commentary to cover all the texts (including the Apocrypha and 1 Enoch) regarded by one or more Christian churches as canonical **Thirteen major essays** that introduce each section of Scripture and its study **Encapsulates in nontechnical language the best of modern scholarship** Includes superb bibliographies and an extensive subject index **Written by sixty-seven first-rate Bible scholars** Designed for use by scholars, students, pastors, and general readers

King Abdallah and Palestine Jun 19 2021 When in 1921 the British created the 'Amirate of Transjordan' for Abdallah to rule, the barren and desolate region he was given made him concentrate almost from the start on Palestine for an expansionist drive that was to underpin the legitimacy of the kingdom he craved and lend lustre to the crown he coveted. Analyzing Abdallah's strategies vis-a-vis the other players involved - the British, the Jews, the Arab States and the Palestinian Arabs - the author painstakingly shows how Abdallah gradually went about fulfilling that lifelong ambition.

Futile Diplomacy, Volume 1 Nov 05 2022 Most students of the history of Arab-Jewish relations have come to take for granted the stubborn resistance of the continuing dispute to any form of lasting and 'reasonable' solution. This book, first published in 1983, examines early Arab-Zionist negotiating experience with the assumption that this has direct relevance to our understanding of the possible outcomes of diplomatic approaches to resolving the conflict. Its main purpose is to assemble (half of the book consists of original souce documents) and discuss some of the raw material which may help readers focus more clearly on the origins of the conflict, and perhaps to eliminate some recurring fallacies about its development and the prospects for its resolution. An examination of the period 1913 to 1931 reveals of wealth of previous negotiating experience which is today largely forgotten, and indicates that there was little or no movement of any of the parties in the direction of modifying its basic minimum demands and aspirations.

Futile Deceptions Jan 15 2021 Basil Ackroyd, a refugee from a financial scandal in an English municipal council, becomes the mayor of a small town in the French Midi saturated with expatriates. He has been running the town as his own domain for many years when outside influences threaten to rob him of his ill-gotten gains. His total lack of sensibility to those around him and insatiable greed blinds him to the real situation and his efforts to combat the menace results in multiple mishaps and a worsening of his position. The hero, Basil Ackroyd, is gloriously Machiavellian and amoral, endlessly scheming and machinating for his own selfish benefit and advantage. Unfortunately for Basil, his schemes have a habit of blowing up in his face and destroying him. But he is never discouraged and is endlessly re-inventive.

Myth and the Making of Modernity Jun 27 2019 The contributors to this collection of essays on the literary use of myth in the early twentieth century and its literary and philosophical precedents from romanticism onwards draw on a range of disciplines, from anthropology, comparative literature, and literary criticism, to philosophy and religious studies. The underlying assumption is that modernist myth-making does not retreat from modernity, but projects a mode of being for the future which the past could serve to define. Modernist myth is not an attempted recovery of an archaic form of life so much as a sophisticated self-conscious equivalent. Far from seeking a return to an earlier romantic valorizing of myth, these essays show how the true interest of early twentieth-century myth-making lies in the consciousness, affirmative as well as tragic, of living in a human world which, in so far as it must embody value, can have no ultimate grounding. Although myth may initially appear to be the archaic counterterm to modernity, it is thus also the paradigm on which modernity has repeatedly reconstructed, or come to understand, its own life forms. The very term myth, by combining, in its modern usage, the rival meanings of a grounding narrative and a falsehood, encapsulates a central problem of modernity: how to live, given what we know.

Inherited Disorders of Carbohydrate Metabolism Mar 29 2022 The sixteenth annual symposium of the Society for the Study of Inborn Errors of Metabolism was held in Bristol from 12th to 14th July, 1978. About 25 invited speakers and 150 participants came from many parts of Europe and North America to consider the topic, 'Inherited Disorders of Carbohydrate Metabolism'. Although some aspects of these disorders have formed part of the programme of previous symposia organized by the Society, this was the first attempt to discuss them in a systematic manner. The subject, carbohydrate disorders, embraces both familiar and well documented conditions and some lesser known aspects of genetic disease. In all of these there remains much to be learnt about clinical and laboratory diagnosis, treatment, biochemical screening and pathogenesis. Thus one aim of the Society, to combine clinical and scientific interest, can rarely have been better achieved in a single symposium. Since the programme included diseases from six different areas of car bohydrate metabolism and contained so many distinguished speakers, it is impossible to highlight the more important aspects of this symposium within a short space. Each section made a notable contribution to knowledge and, when time was available, lively discussions ensued which have been recorded in the book. However, we wish to mention our two special lectures, because they recognise people to whom the Society owes a great deal. The Milner lecture has been given for the past 6 years as a tribute to Mr J.

Current Topics in Cellular Regulation Sep 03 2022 **Current Topics in Cellular Regulation: Volume 28** is a collection of papers that deals with enzyme-enzyme interactions, regulation of metabolic reaction pathways, the relevance of intracellular amino acid pool in the regulation of protein metabolism, and the production of superoxide by phagocytic leukocytes. Other papers discuss the regulation of adrenergic receptor function by phosphorylation, a membrane-bound metallo-endopeptidase (meprin), as well as the covalent modification as a mechanism of marking proteins for degradation. One paper notes that the transfer pathway involving enzyme-enzyme recognition is associated with molecular specificity features over those demanded by the molecular structural constraints of the individual enzyme sites. The Albery and Knowles principle, under certain conditions, shows that intermediary metabolites within a particular pathway exist in states of nearly equal free energy. One paper describes that the amino acid pool size and content are governed by the conditioning of intracellular proteins and the metabolic activity of the cell. The paper also suggests that intracellular pools do not regulate protein metabolism. The collection can prove beneficial for biochemists, micro-biologists, cellular researchers, and academicians involved in the study of cellular biology or physiology.

Our Reason for Being Feb 25 2022 Ecclesiastes is a persuasive speech with a rhetoric so unique that it can be easily misunderstood. It speaks powerfully to believers as well as nonbelievers because it addresses the question of the meaning of life in the most satisfying way. The heart of this book is an expositional commentary that interprets Ecclesiastes as authoritative Scripture. It seeks to recover the rhetoric of the speech in terms of its comprehensive message on the meaning of life as well as its compelling force to get the message across. Preceding the expositional commentary is an introduction to Ecclesiastes that presents a new approach to outlining and reading Ecclesiastes as a coherent speech. It also presents an overview of the “forest”—the overall rhetorical flow of the speech from beginning to end. This is to prevent one from getting lost when immersed in the “trees” of the expositional commentary. Following the expositional commentary are two topical studies to give Ecclesiastes the breadth and depth of coverage it deserves. The first is an interdisciplinary exposition on the meaning of life. The second is an interpretive essay to defend exegetically the interpretation of Ecclesiastes as a coherent speech.

The Lovejoy Omnibus (Books 1-4) Sep 22 2021 The Judas Pair Every antique dealer is a bit of a detective, following clues to find the trophies that pay the rent, but when Lovejoy takes on the job of tracking down a pair of duelling pistols so rare that he's not even sure actually exist, he needs all the instincts of a detective to pick his way through an unsolved crime. Along the way, he becomes convinced that the weapons do exist but that they have fallen into the hands of a vile murderer. Locating the ancient weapons seems like the least of his problems when Lovejoy then finds himself fighting for his life in a duel to the death! Gold From Gemini Lovejoy discovers how the lure of gold brings out the worst kind of treasure seeker when, broke as usual and earning a crust as an unlikely babysitter, he stumbles across the diaries of a painter that appear to point to the whereabouts of a fabled hoard of Roman gold coins. Lovejoy is tempted to dismiss the whole thing as a hoax, but vile threats and violent intimidation have a way of changing his mind. He sets out to unravel the clues in the diaries, with some particularly nasty characters dogging his every move. The Grail Tree Lovejoy has heard of more nutters who have claimed to be in possession of the one, true Holy Grail than he has had hot dinners. He's not too impressed with the eccentric clergyman making the latest claim - especially when the good vicar turns out to be one of the finest forgers Lovejoy has ever met. But when the vicar and his lady companion end up dead it becomes clear that someone else is after the old man's artefact. To solve the mystery and protect a precious piece of history, Lovejoy puts his life on the line and acquires a surprising new partner... Why did his friend buy up a load of junk furniture? What did he want with an old doctor's bag? Why was his friend killed? Who was trying to kill Lovejoy and - most perplexing of all - what the hell is he doing potholing through underground tunnels dodging armed hit men?

Ethics in Medicine May 07 2020 How, in a secular world, should we resolve ethically controversial and troubling issues relating to health care? Should we, as some argue, make a clean sweep, getting rid of the Hippocratic ethic, such vestiges of it as remain? Jennifer Jackson seeks to answer these significant questions, establishing new foundations for a traditional and secular ethic which would not require a radical and problematic overhaul of the old. These new foundations rest on familiar observations of human nature and human needs. Jackson presents morality as a loose anatomy of constituent virtues that are related in different ways to how we fare in life, and suggests that in order to address problems in medical ethics, a virtues-based approach is needed. Throughout, attention is paid to the role of philosophy in medical ethics, and how it can be used to clarify key notions and distinctions that underlie current debates and controversial issues. By reinstating such concepts as justice, cardinal virtue, and moral duty, Jackson lays the groundwork for an ethics of health care that makes headway toward resolving seeming dilemmas in medical ethics today. This penetrating and accessible book will be invaluable to students of sociology and health care, as well as those who are interested in the ethical uncertainties faced by the medical world.
