Corporate Ownership and Control Sep 22 2021 The governance of companies is of importance to developing countries due to the link between effective corporate governance and economic development. Ownership and control of public companies, except in the US and UK, is often in the hands of a few individuals, families or corporate groups and impact on corporate governance and economic development. Using Sri Lanka as an illustrative example, Corporate Ownership and Control sets out the implications of corporate ownership and control structures on the governance of companies, and suggests a reform agenda to meet the challenges posed by such structures. Any analysis into the reform of corporate governance in developing countries should begin with a focus on the local market structures that define its adaptation and effectiveness. The issues explored in the book provide an insight into ownership and control structures in Sri Lanka, the costs and benefits of such structures, and the necessary reform framework to promote effective corporate governance. The analysis can be used to both understand the impact of ownership structures on corporate governance, and suggest how corporate governance issues arising from such structures should be resolved in order to promote economic development and growth.

Acquisition and Loss of Ownership of Goods Dec 02 2019 This volume contains the major result of the work undertaken by the international research group "Transfer of Movables" which belonged to the Study Group on a European Civil Code. It covers the most important aspects of the law of property in movables, such as the transfer of ownership based on the transferor's right and the good faith acquisition of ownership. The suggested black letter provisions are accompanied by extensive explanatory comments and comparative notes providing information on the existing rules of the EU Member States. As compared to Book VIII of the DCFR, this volume contains additional and partly revised national notes, extended comments, translations of the black letter rules and adapted registers. The "Principles of European Law" are published in co-operation with Oxford University Press and Staempfli (Switzerland).

Ownership and Governance of Enterprises Jul 01 2022 Conventional wisdom recommends the superiority of private ownership of enterprises. The reality confronts it with a rich diversity in ownership and governance structures. This volume examines five types of unorthodox ownership and governance form emerging in the industrial sector across major economies. It analyzes two cases to demonstrate that there are alternative ways to harden budget constraints of state-owned enterprises. It investigates the driving forces behind these evolving dynamics and explores policy implications for developing and transition economies.

A Digest of Maritime Law Cases, from 1837 to 1860 Feb 02 2020

Owner Controlled Insurance Programs Dec 26 2021 TRB's National Cooperative Highway Research Program (NCHRP) Synthesis 308: Owner-Controlled Insurance Programs (OCIPs) provides a brief history of OCIPs, the OCIP experiences of state departments of transportation, contractor issues, and controlling risk, and discusses at length how to choose an OCIP, how to develop an OCIP, and how to operate under an OCIP.
