The Rise of the Amsterdam Market and Information Exchange Mar 16 2021 Most scholars agree that during the sixteenth century, the centre of European international trade shifted from Antwerp to Amsterdam, presaging the economic rise of the Dutch Republic in the following century. Traditionally this shift has been accepted as the natural consequence of a dynamic and progressive city, such as Amsterdam, taking advantage of expanding commercial opportunities at the expense of a more conservative rival hampered by outmoded medieval practices. Yet, whilst this theory is widely accepted, is it accurate? In this groundbreaking study, Clé Lesger argues that the shift of commercial power from Antwerp to Amsterdam was by no means inevitable, and that the highly specialized economy of the Low Countries was more than capable of adapting to the changing needs of international trade. It was only when the Dutch Revolt and military campaigns literally divided the Low Countries into separate states that the existing stable spatial economy and port system fell apart, and a restructuring was needed. Within this process of restructuring the port of Amsterdam acquired a function radically different to the one it had prior to the division of the Netherlands. Before the Revolt it had served as the northern outpost in a gateway system centred on Antwerp, but with access of that port now denied to the new republic, Amsterdam developed as the main centre for Dutch shipping, trade and - crucially - the exchange of information. Drawing on a wide variety of neglected archival collections (including those of the Bank of Amsterdam), this study not only addresses specific historical questions concerning the commercial life of the Low Countries, but through the case study of Amsterdam, also explores wider issues of early modern European commercial trade and economic development.

History Of The Venetian Republic; Her Rise, Her Greatness, And Her Civilization (Volume IV) Mar 28 2022

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

The Rise of Little Big Norway Jun 18 2021 "The Rise of Little Big Norway" explores the unlikely rise of Norway from peripherality to today's global steward with an enviable work-life balance, influential oil fund and Arctic front-row seat. Drawing on wide-ranging source material, John Ross's original approach combines astute observation, thoughtful analysis and a flowing essay style, leavened with the comparative insight that only a seasoned observer of the region can bring. The book examines the settings, histories and niche elements that lend Norway its distinctiveness and differentiate it from its Nordic neighbors. It gives special attention to the northern and Arctic dimensions of Norwegian life and elaborates a connecting thematic thread, the mobility that once took Vikings across the Atlantic in open boats and makes today's Norwegians the most-traveled people on the planet. The result is a carefully crafted general study of Norway, a country long overlooked in favor of its Nordic neighbors but now a quiet force in its own right and a touchstone for twenty-first century issues ranging from identity politics to the Arctic melt. This book fills a major gap in the literature on Norway and the Nordic region.

Rise Up to Greatness Jun 06 2020 11 fiery women and myself have come together to create a book entitled "Rise Up to Greatness: A Young Women's Devotional." Not only do we speak about faith in God, but we share our personal stories of tests, trials, and triumphs to encourage, uplift, and inspire.

Rise to Greatness, Volume 3: Realm (1949-2017) Apr 16 2021 Colourful, comprehensive, and masterfully written, this is the third and final volume in a major history of our country by one of our most respected thinkers and historians—a book every Canadian should own. From the acclaimed biographer and historian Conrad Black comes the definitive history of Canada—a vivid, revelatory account of the people and events that shaped a nation. The final of three volumes, spanning from the year 1949-2014, this compelling history challenges our perception of our Canada's role in the world, taking on sweeping themes and recounting the story of Canada's development from colony to dominion to country. Black persuasively reveals that while many would argue that Canada was perhaps never predestined for greatness, the opposite is in fact true: the emergence of a magnificent country, against all odds, was a remarkable achievement. Brilliantly conceived, this major new reexamination of our country's history is a riveting tour de force by one of the best writers writing today.

Democratic Enlightenment Jan 26 2022 The Enlightenment shaped modernity. Western values of representative democracy and basic human rights, gender and racial equality, individual liberty, and freedom of expression and the press, form an interlocking system that derives directly from the Enlightenment's philosophical revolution. This fact is uncontested - yet remarkably few historians or philosophers have attempted to trace the process of ideas from the political and social turmoil of the late eighteenth century to the present day. This is precisely what Jonathan Israel now does. He demonstrates that the Enlightenment was an essentially revolutionary process, driven by philosophical debate. From 1789, its impetus came from a small group of philosophe-revolutionnaires, men such as Mirabeau, Sieyès, Condorcet, Volney, Roederer, and Brissot. Not aligned to any of the social groups who took the lead in the French National assembly, the Paris commune, or the editing of the Parisian revolutionary journals, they nonetheless forged 'la philosophie moderne' — in effect Radical Enlightenment ideas — into a world-transforming ideology that had a lasting impact in Latin America and eastern Europe as well as France, Italy, Germany, and the Low Countries. Whilst all French revolutionary journals clearly stated that la philosophie moderne was the main cause of the French Revolution, the main stream of historical thought has failed to grasp what this implies. Israel sets the record straight, demonstrating the true nature of the engine that drove the Revolution, and the intimate links between the radical wing of the Enlightenment and the anti-Robespierriste 'Revolution of reason'.

Rise to Greatness Oct 03 2022 Masterful, ambitious, and groundbreaking, this is a major new history of our

country by one of our most respected thinkers and historians -- a book every Canadian should own. From the acclaimed biographer and historian Conrad Black comes the definitive history of Canada -- a revealing, groundbreaking account of the people and events that shaped a nation. Spanning 874 to 2014, and beginning from Canada's first inhabitants and the early explorers, this masterful history challenges our perception of our history and Canada's role in the world. From Champlain to Carleton, Baldwin and Lafontaine, to MacDonald, Laurier, and King, Canada's role in peace and war, to Quebec's quest for autonomy, Black takes on sweeping themes and vividly recounts the story of Canada's development from colony to dominion to country. Black persuasively reveals that while many would argue that Canada was perhaps never predestined for greatness, the opposite is in fact true: the emergence of a magnificent country, against all odds, was a remarkable achievement. Brilliantly conceived, this major new reexamination of our country's history is a riveting tour de force by one of the best writers writing today.

Herr Paulus, Vol. 2 of 3 Aug 28 2019 Excerpt from Herr Paulus, Vol. 2 of 3: His Rise, His Greatness and His Fall Captain Macheath, by the roystering blades Of London Town, by the sparks from the Temple and Gray's Inn, by grave citizens who brought their wives and daughters for an evening of innocent amusement, and by riotous young noblemen who came with Cynthia and Chloe. At the back of the church was the workhouse, whither, in due course, Cynthia and Chloe retreated, a good deal battered by the Joyous Life and South Of the workhouse lay the great burying ground, oldest of the London cemeteries, which is now a garden. Cynthia and Chloe both lie buried here without any tombstones. Oh! The tales that these houses could tell the nights they remember when the horns resounded in the gardens, and when the men sang at their suppers, and Kitty, and Jenny, and Polly pranced around with their gallants, and the highv'vaymen swaggered within, and the footpad lurked without, and the gamester and the pluck-pigeon prowled about in search Of their prey. But their historiettes would be more amusing than edifying. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Grow to Greatness Aug 21 2021 Simply put, most entrepreneurial start-ups fail. Those fortunate enough to succeed then face a second, major challenge: how to grow. This book focuses on the key questions an entrepreneur must answer in order to grow a business. Based on extensive research of more than fifty successful growth companies, *Grow to Greatness* discusses the top ten growth challenges and how to overcome them. Author Edward D. Hess dispels the myth that businesses must grow or die. Growth can create value. But, too much growth too fast outstrips effective processes, controls, or management capacity. Viewing growth as "recurring change," *Grow to Greatness* lays out a framework for how to approach business development—and how to manage its risks and pace. The book then takes readers through chapters that explore whether the time is right to grow, how to do it, and how to manage the vital reality that growth requires the right leadership, culture, and people. Uniquely, this book aims to prepare readers for the day-to-day reality of growth, offering up the lived experiences of eleven entrepreneurs. Six workshops to assess where readers stand now and a suite of templates that will prove to be useful over time help bring the book's teachings to life. After reading this book, entrepreneurs will have a real understanding of their readiness to grow and place in the growth cycle, as well as a concrete action plan for where to take their businesses next. Many books address how to start a business, but this is a unique, go-to resource for readers who want to learn how to thrive beyond the start-up phase.

England's Rise to Greatness, 1660-1763 Jun 26 2019 In 1660 England was already prosperous, free, civilized, and the possessor of the makings of an empire. In the century to follow, the island nation became the world's greatest power. This cohesive collection of essays on a wide range of topics illuminates important facets of the political history of England from the Restoration to the American War of Independence. Arthur J. Slavin of the university of Louisville discusses an important problem in legal history in his "Craw v. Ramsey: New light on an Old Debate." Jacob M. Price of the University of Michigan takes another look at the Excise Crisis. Ragnhild M. Hatton of the London School of Economics sheds new light on George I. Daniel A. Baugh of Cornell University considers "pauperism, Protestantism, and Political Economy: English Attitudes toward the Poor 1660 - 1800." Anglo-Savoyard relations are the topic of Geoffrey Symcox of the University of California, Los Angeles. The late Arthur M. Wilson of Dartmouth is represented by a wise and charming paper entitled "The Enlightenment Came First to England." Lois G. Schworer of George Washington University finds new perspectives while examining the Glorious Revolution. John Brewer of Harvard explains "the Number 45: A Wilkite Political Symbol." Clayton Roberts of the Ohio State University discusses "Party and the Patronage in Later Stuart England," while Stephen Baxter of the University of North Carolina takes up some aspects of the conduct of the Seven Years War. All of the contributions were originally delivered at the William Andrews Clark Memorial Library during Stephen Baxter's tenure as Clark Library Professor in 1977 - 1978. Each of the essays will appeal to a learned audience of specialists, and the variety of topics will interest the general reader. This collection represents the leading scholarship on this remarkable period of English history. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1983.

Life. An Epic Jul 28 2019

Poseidon's Curse May 06 2020 Poseidon's Curse interprets the American Revolution from the vantage point of the Atlantic Ocean. Christopher P. Magra traces how British naval impressment played a leading role in the rise of Great Britain's seaborne empire, yet ultimately contributed significantly to its decline. Long reliant on appropriating free laborers to man the warships that defended British colonies and maritime commerce, the British severely jeopardized mariners' earning potential and occupational mobility, which led to deep resentment toward the British Empire. Magra explains how anger about impressment translated into revolutionary ideology, with impressment eventually occupying a major role in the Declaration of Independence as one of the foremost grievances Americans had with the British government.

The Mystery of the Shemitah Jul 08 2020 Offers an exploration of a three-thousand-year-old mystery that is purported to foresee the future of America and the world, with explanations of how this secret mystery has foretold major events in recent history.

Spinning the Globe Dec 13 2020 Before Wilt Chamberlain, Bill Russell, Julius Erving, or Michael Jordan—before Magic Johnson and Showtime—the Harlem Globetrotters revolutionized basketball and spread the game around the world. In *Spinning the Globe*, author Ben Green tells the story of this extraordinary franchise and iconic American institution. We follow the Globetrotters' rise from backwoods obscurity during the harsh years of the Great Depression to become the best basketball team in the country and, by the early 1950s, the most popular sports franchise in the world. Green brings to life their struggles with racism and segregation, and their influence upon a nation's views about race and sport. We witness the Globetrotters' fall from grace to the brink of bankruptcy in the early 1990s, and their ultimate rebirth under Mannie Jackson today, as they once again amaze kids and families around the world. Now in paperback, this is the true and complete story of their amazing eighty years as a team, told with lyrical prose and masterful storytelling by Ben Green.

Herr Paulus Feb 12 2021

America's Rise to Greatness Under God's Covenant Sep 02 2022 This book is part of a three-part series on America as a Covenant Nation. This volume covers from the rise of America's industrial revolution in the late 1800s to America's taking the position in the Cold-War 1950s as the leader of the "Free World." It is a typical social (political, economic, and military) history of America—untypical however in how it connects the intellectual, moral and spiritual character of America with those same social events. It takes the reader through the days of Western imperialism, World War One, the Roaring Twenties, the Great Depression, World War Two, the beginning of the Cold War, and finally the age of Middle-America's grand success (the 1950s). It focuses heavily on the leaders (most frequently the country's presidents) and how their own personal spirituality shaped their times—and the way the Christian community in particular responded to both the social challenges facing it and the spiritual leadership attempting to inspire and guide it. It seeks to give the Christian reader (or Secular reader if he or she is willing to be challenged) a highly-detailed knowledge of the historical path—social and spiritual—that has brought us to today's world ... and its enormous challenges.

Herr Paulus: His Rise, His Greatness, and His Fall Aug 09 2020

Replenishing the Earth Sep 29 2019 Why are we speaking English? *Replenishing the Earth* gives a new answer to that question, uncovering a 'settler revolution' that took place from the early nineteenth century that led to the explosive settlement of the American West and its forgotten twin, the British West, comprising the settler dominions of Canada, Australia, New Zealand, and South Africa. Between 1780 and 1930 the number of English-speakers rocketed from 12 million in 1780 to 200 million, and their wealth and power grew to match. Their secret was not racial, or cultural, or institutional superiority but a resonant intersection of historical changes, including the sudden rise of mass transfer across oceans and mountains, a revolutionary upward shift in attitudes to emigration, the emergence of a settler 'boom mentality', and a late flowering of non-industrial technologies -wind, water, wood, and work animals - especially on settler frontiers. This revolution combined with the Industrial Revolution to transform settlement into something explosive - capable of creating great cities like Chicago and Melbourne and large socio-economies in a single generation. When the great settler booms busted, as they always did, a second pattern set in. Links between the Anglo-wests and their metropolises, London and New York, actually tightened as rising tides of staple products flowed one way and ideas the other. This 're-colonization' re-integrated Greater America and Greater Britain, bulking them out to become the superpowers of their day. The 'Settler Revolution' was not exclusive to the Anglophone countries - Argentina, Siberia, and Manchuria also experienced it. But it was the Anglophone settlers who managed to integrate frontier and metropolis most successfully, and it was this that gave them the impetus and the material power to provide the world's leading super-powers for the last 200 years. This book will reshape understandings of American, British, and British dominion histories in the long 19th century. It is a story that has such crucial implications for the histories of settler societies, the homelands that spawned them, and the indigenous peoples who resisted them, that their full histories cannot be written without it.
