Topics In Advanced Econometrics Dec 02 2019 This book is intended for second year graduate students and professionals who have an interest in linear and nonlinear simultaneous equations models. It basically traces the evolution of econometrics beyond the general linear model (GLM), beginning with the general linear structural econometric model (GLSEM) and ending with the generalized method of moments (GMM). Thus, it covers the identification problem (Chapter 3), maximum likelihood (ML) methods (Chapters 3 and 4), two and three stage least squares (2SLS, 3SLS) (Chapters 1 and 2), the general nonlinear model (GNLM) (Chapter 5), the general nonlinear simultaneous equations model (GNLSEM), the special case of GNLSEM with additive errors, nonlinear two and three stage least squares (NL2SLS, NL3SLS), the GMM for GNLSEIV, and finally ends with a brief overview of causality and related issues, (Chapter 6). There is no discussion either of limited dependent variables, or of unit root related topics. It also contains a number of significant innovations. In a departure from the custom of the literature, identification and consistency for nonlinear models is handled through the Kullback information apparatus, as well as the theory of minimum contrast (MC) estimators. In fact, nearly all estimation problems handled in this volume can be approached through the theory of MC estimators. The power of this approach is demonstrated in Chapter 5, where the entire set of identification requirements for the GLSEM, in an ML context, is obtained almost effortlessly, through the apparatus of Kullback information.

Sustainable Business Management Jan 03 2020 With the book the authors want to make a contribution towards discovering and developing the subject of sustainable business management. To do so, they initially put sustainable business management in its scientific context and then illuminate the areas of direct relevance for management. This includes the positioning within strategic management, the demands of sustainability on personnel management, innovation management, international management as well as operative environmental management. With a focus on corporate leadership, sustainability is discussed in the context of financial management and controlling, including the already existing instruments for implementing sustainability used by practitioners as well as legal requirements. Next, the reader learns how the value chain and marketing activities can be structured in a sustainable fashion. Finally an outlook on the possible future development of sustainable management is provided.

Social Justice Leadership for a Global World Dec 14 2020 The global economic meltdown has highlighted the interconnectedness of nations. This book seeks to provide an overview of topics, issues, and best practices related to defining social justice leadership given our increasingly global world. Refugees and immigrants from around the globe now inhabit schools and institutions of higher education across the nation and US students, teachers, and leaders are traversing international borders both physically and virtually through international collaboration, technology, and exchange programs. Although there have been increased efforts and scholarship in support of diversity and multicultural awareness, these efforts have largely focused on the US. We acknowledge that many leadership theories are "domestic" in that they typically incorporate US perspectives or a single-culture description of effective leadership. This book provides a deeper understanding of diverse and multicultural perspectives as they relate to a world that is becoming increasingly interconnected economically, socially, and culturally. Particular attention is paid to providing specific strategies for social justice leaders working in PK-12 and/or higher education, and leadership preparation programs to promote effective leadership that reflects multicultural understanding of the diversity both within and outside the US. Within the context of leadership practice, internationalization offers new insights and ideas about leadership aims, processes, and competencies as a means for addressing equity concerns throughout PK-20 education.

Die strafrechtliche Wiederaufnahme im deutschen, französischen und englischen Recht Oct 12 2020 Normalerweise endet ein Strafverfahren mit der Rechtskraft der dieses abschließenden Entscheidung. Danach steht das Doppelverfolgungsverbot (ne bis in idem) aus Art. 103 III GG einem erneuten Strafverfahren in derselben Sache entgegen. Ausnahmsweise erlauben jedoch die §§ 359 ff. StPO eine Wiederaufnahme. Die Arbeit nimmt die kontinuierlichen Diskussionen um die Ausgestaltung der Wiederaufnahme zum Anlass, die Stärken und Schwächen der gegenwärtigen deutschen Rechtslage zu beleuchten und dessen Reformbedürftigkeit zu evaluieren. Dabei beschränkt sie sich nicht auf eine rein nationale Betrachtung. Vielmehr untersucht die Arbeit neben dem deutschen Recht auch die Rechtslage in Frankreich und England als den wichtigsten Stellvertretern des romanischen Rechtskreises und des Rechtskreises des Common Law. Auf Basis des funktionalen Vergleichs mit diesen wichtigsten – jedenfalls derzeit noch – in der EU vertretenen Rechtskreisen stellt sie Reformüberlegungen an.
