Marketing Yourself At Job Interview Aug 06 2020 Do you have a job interview coming up? Are you prepared? The best way to get ready for an interview is to take the time to review the most common interview questions you will most likely be asked, along with examples of the best answers. Knowing what you're going to say can eliminate a lot of interview stress. The fact is that in an interview it is far more than just looking over a resume or CV, the interviewer must use discretion and make a judgment in a small time frame. One thing to remember here is, to be HONEST. No one wants to talk to a liar and so lay your cards on the table but do not just give your weaknesses away as this could make it hard for them to justify hiring you.
