William Morris's Flowers Apr 05 2020 A beautiful and informative gift book devoted to designs by William Morris that incorporate flowers—a central motif in his oeuvre and one that played a part in the majority of his designs. The leading figure of the Arts and Crafts Movement, William Morris (1834–1896) is one of the best-known and most popular of all British designers. A passionate advocate of craftsmanship over mass production, he designed a huge variety of objects, but it is his spectacular carpet, fabric, and wallpaper patterns that have continued to capture the popular imagination and influence interior designers and the decorative arts. Around six hundred such designs are attributed to Morris, most of which are based on nature, including trees, plants, and flowers. This beautifully designed, accessibly priced gift book offers a wealth of designs by Morris where flowers are the principal motif. The text traces the origins of Morris's flower-based designs: his own gardens at the Red House in Kent; sixteenth- and seventeenth-century herbals; illuminated medieval manuscripts; late medieval and Renaissance tapestries; and the range of decorated objects, particularly from the Islamic world, that Morris studied at the South Kensington Museum, now the Victoria and Albert Museum. Authored by Rowan Bain, senior curator at the William Morris Gallery, and lavishly illustrated with over one hundred color illustrations, *William Morris's Flowers* will both inform and delight.

The Routledge Companion to William Morris Oct 31 2019 William Morris (1834–96) was an English poet, decorative artist, translator, romance writer, book designer, preservationist, socialist theorist, and political activist, whose admirers have been drawn to the sheer intensity of his artistic endeavors and efforts to live up to radical ideals of social justice. This Companion draws together historical and critical responses to the impressive range of Morris's multi-faceted life and activities: his homes, travels, family, business practices, decorative artwork, poetry, fantasy romances, translations, political activism, eco-socialism, and book collecting and design. Each chapter provides valuable historical and literary background information, reviews relevant opinions on its subject from the late-nineteenth century to the present, and offers new approaches to important aspects of its topic. Morris's eclectic methodology and the perennial relevance of his insights and practice make this an essential handbook for those interested in art history, poetry, translation, literature, book design, environmentalism, political activism, and Victorian and utopian studies.

William Morris: A Life for Our Time Feb 02 2020 Winner of the Wolfson History Prize, and described by A.S.Byatt as 'one of the finest biographies ever published', this is Fiona MacCarthy's magisterial biography of William Morris, legendary designer and father of the Victorian Arts and Crafts movement. 'Thrilling, absorbing and majestic.' Independent 'Wonderfully ambitious ... The definitive Morris biography.' Sunday Times 'Delicious and intelligent, full of shining detail and mysteries respected.' Daily Telegraph 'Oh, the careful detail of this marvellous book! . . . A model of scholarly biography'. New Statesman Since his death in 1896, William Morris has been celebrated as a giant of the Victorian era. But his genius was so multifaceted and so profound that its full extent has rarely been grasped. Many people may find it hard to believe that the greatest English designer of his time - possibly of all time - could also be internationally renowned as a founder of the socialist movement, and ranked as a poet with Tennyson and Browning. In her definitive biography - insightful, comprehensive, addictively readable - the award-winning Fiona MacCarthy gives us a richly detailed portrait of Morris's complex character for the first time, shedding light on his immense creative powers as artist and designer of furniture, fabrics, wallpaper, stained glass, tapestry, and books; his role as a poet, novelist and translator; on his psychology and his emotional life; his frenetic activities as polemicist and reformer;

and his remarkable circle of friends, literary, artistic and political, including Dante Gabriel Rossetti and Edward Burne-Jones. It is a masterpiece of biographical art.

New Wave Clay Feb 13 2021 New Wave Clay unpicks the zeitgeist and aesthetic of an exciting discipline with intelligence, insight and indulgence. Against the backdrop of the digital age and shiny screens, a whole new generation of craftspeople, designers and artists are realizing the pleasure of working with clay and bringing a fresh perspective to the material. Contemporary American Jewelry Design Mar 05 2020 The Phenomenon of Studio Goldsmithing When the history of art in the 1980s is written, much of it will be etched in gold. This is the time of the contemporary goldsmith, an artist who chooses to work in precious metals rather than oils or marble. The contemporary jeweler-as-artist has only recently become a recognized force. With rare exceptions, the whole field is little more than thirty years old. But it is only within the past fifteen years that these jewelers have entered the jewelry mainstream. The phenomenon of contemporary goldsmithing embraces an eclectic group of artists, each with a unique vision, each taking a personal path to jewelry producing. They have as little relationship to the typical, mass-produced jewelry as a champagne maker has to a bottler of orange soda. They approach a piece of art, not a piece of metal. The work is personal and a perfect expression of the "back to the land" movement that spawned it. Many of these goldsmiths were looking not merely for a way to make a living but for a

way to make a life that was worthy of living. Running a business while trying to remain a creative metalsmith at the same time is the ongoing challenge. The jeweler-artists have solved or resolved these often conflicting needs in slightly different ways and in a beautiful variety of techniques and styles. Their methods, their growth, and their work are discussed here.

Beauty of Life Apr 29 2022 "Beauty, which is what is meant by art. . . is no mere accident to human life, which people can take or leave as they choose, but a positive necessity of life." —William Morris William Morris, the leader of the British Arts and Crafts movement, was a man of tremendous energies, his accomplishments astonishing in their range and depth. He became successively a poet, embroiderer, pattern designer, calligrapher, dyer, weaver, translator, architectural preservationist, socialist, and book publisher and printer. As the head of the internationally successful Morris & Company, he devoted himself to the decorative arts. Drawing upon The Huntington's superb holdings of the largest collection of Morris material in North America, this book examines the life and work of the designer and of Morris & Company. It contains detailed studies of Morris's stained glass, interior decoration designs, and book publishing ventures, as well as an essay on his successor at Morris & Company, J. H. Dearle. The book also explores the design legacy of Morris and the firm in the late nineteenth and twentieth centuries on both sides of the Atlantic. Diane Waggoner, curator of the exhibition at The Huntington, is a specialist in nineteenth-century art and has written about the photography of Lewis Carroll. The contributors include Pat Kirkham, Professor of Design History at the Bard Graduate Center for Studies in the Decorative Arts, Design, and Culture; Gillian Naylor, professor emerita at the Royal College of Art and an expert on the Arts and Crafts movement; and Edward R. Bosley, director of the Gamble House in Pasadena, California.

Utopias and Dystopias in the Fiction of H. G. Wells and William Morris Apr 17 2021 This book is about the fiercely contrasting visions of two of the nineteenth century's greatest utopian writers. A wide-ranging, interdisciplinary study, it emphasizes that space is a key factor in utopian fiction, often a barometer of mankind's successful relationship with nature, or an indicator of danger. Emerging and critically acclaimed scholars consider the legacy of two great utopian writers, exploring their use of space and time in the creation of sites in which contemporary social concerns are investigated and reordered. A variety of locations is featured, including Morris's quasi-fourteenth century London, the lush and corrupted island, a routed and massacred English countryside, the high-rises of the future and the vertiginous landscape of another Earth beyond the stars.

Robert Morris's Folly Jun 07 2020 In 1798 Robert Morris—"financier of the American Revolution," confidant of George Washington, former U.S. senator—plunged from the peaks of wealth and prestige into debtors' prison and public contempt. How could one of the richest men in the United States, one of only two founders who signed the Declaration of Independence, the Articles of Confederation, and the Constitution, suffer such a downfall? This book examines for the first time the extravagant Philadelphia town house Robert Morris built and its role in bringing about his ruin. Part biography, part architectural history, the book recounts Morris's wild successes as a merchant, his recklessness as a land speculator, and his unrestrained passion in building his palatial, doomed mansion, once hailed as the most expensive private building in the United States but later known as "Morris's Folly." Setting Morris's tale in the context of the nation's founding, this volume refocuses attention on an essential yet nearly forgotten American figure while also illuminating the origins of America's ongoing, ambivalent attitudes toward the superwealthy and their sensational excesses.

William Morris and his Palace of Art May 07 2020 William Morris and his Palace of Art is a comprehensive new study of Red House, Bexleyheath; the only house commissioned by William Morris and the first independent architectural work of his close friend, Philip Webb. Morris moved in to Red House as an ebullient young man of 26, with an independent income and a head brimming with ideas and the persistent question of 'how best to live? Red House, together with its Pre-Raphaelite garden, stands as the physical embodiment of his exuberant spirit, youthful ambition, passionate medievalism, creativity and great sense of possibility.

For five intense years from 1860-5, it was a place of halcyon days - happy family life, loyal friendship, good humoured competition, and the jovial campaign of decorating; furnishing the house and designing the garden. Drawing on a wealth of new physical evidence, this book argues that Red House constitutes an ambitious and critical chapter in his design history. It will re-consider the inspiration it provided for the founding of 'the Firm' of Morris, Marshall, Faulkner & Co. (later Morris & Co.), in 1861, and the vital collaboration of Webb, Burne-Jones, Rossetti and their intimate circle in realising Morris's dream for his house.
