**Soundoff** Sep 30 2019 Soundoff is a book about present day political corruption in Washington, D.C. and how Barach Obama, a socialist, is attempting to turn this country into a socialist nation. The people of this country, like the Jews during the holocaust, are being blinded by a charismatic Obama, as Germany was blinded by Hitler. He wants to set up child care for you. He wants to teach your young children. He wants your children to sing praises to him in the schools. He wants the citizens to snitch on each other and has set up websites so this can be done. He wants to set up a national police force answerable to him, separate from the military through the U. S. Marshall Service. He wants to take over the internet. America cannot survive another four years of Barach Obama under a democratic government. He already said our Constitution was in his way of his getting things done. He is already doing everything by Executive Fiat.

**America's Forgotten Constitutions** Feb 02 2020 Robert Tsai's history invites readers into the circle of defiant groups who refused to accept the Constitution's definition of who "We the People" are and how their authority should be exercised. It is the story of America as told by dissenters: squatters, Native Americans, abolitionists, socialists, internationalists, and racial nationalists.

**The Rapture 2028: America's Countdown to Apocalypse!** Jun 27 2019 A Shocking Bible Discovery found in the Dead Sea Scrolls! After forty years of research in the Biblical text, this book came about while studying Biblical manuscripts in their original Greek. I was given a project by my Greek professor to research the Dead Sea Scrolls. This research changed my life, my belief about time and the books of the Bible. While researching the Dead Sea Scrolls, I found two historical books that were in the Bible during Jesus time on this Earth. So I ask this question: Why did man remove these books? The deeper I studied I discovered that our Bible should have seventy books instead of sixty-six. Six is the number of man and a number representing incompleteness. Sixty-six doubles its meaning, and the number 666 needs no explanations. "Men do resist God's will today" (2 Peter 3:9). While researching the subject I encountered extreme opposition. The books of the Bible should be divisible by seven. So, we are missing one New Testament book and three Old Testament books to make a seventy

book Bible. Have we been deceived by our religious leaders and science community? Does all time truly consist in a 7,007-year window? This book is written from the complete seventy-book Bible which was revealed in the Dead Sea Scrolls. Do the scrolls reveal angels mating with the daughters of Adam? Where did the giant human originate? Have we all been lied to about Genesis 6 and the events during the days of Noah? Are angels and demons masquerading as aliens and UFOs in a great end of time deception? Will the dollar collapse by 2022? Will the U.S. be destroyed in one day by 2028? "However, when He, the Spirit of truth, has come, He will guide you into all truth; for He will not speak on His own authority, but whatever He hears He will speak; and He will tell you things to come," (John 16:13-14).

**International Business Ethics** May 07 2020 This book addresses an essential need felt by many who seek to promote best business practices in China and East Asia - namely the need for culturally appropriate instructional materials (basic information, case studies and ethical perspectives) that will allow managers and entrepreneurs to understand and embrace the challenge of moral leadership in business. In an era characterized by globalization and the increasing importance of the economies of China, India, Japan and SE Asia, international business ethics must reflect the concerns of the people living and working in this area, the moral and spiritual traditions that have nurtured them and their specific contributions to sustainable development. This book presents twenty important case studies, taken from newsworthy events of the past few years, in which Asians and others have attempted to respond to this challenge. Each case study has been selected and shaped in order to highlight various aspects of doing business in Asia, starting with basic principles and moving on to the specific responsibilities that businesses have towards their various stakeholders. The authors contend that the best way to appreciate the relevance of Asian moral and spiritual traditions is to determine their specific contribution to virtue ethics, where the ancient traditions of both East and West converge in their focus on the qualities of moral leadership that form the basis of best business practice. Exploring the case studies will enable readers to appreciate the continued relevance of these ethical perspectives in Asian business. Best business practice

clearly involves learning to do business and playing the game according to the rules; but the necessity of playing by the rules is not likely to become clear until one takes up the path that leads to a virtuous life in business, developing a moral character chiefly based on integrity.

**Text, Speech, and Dialogue** Dec 26 2021 This book constitutes the refereed proceedings of the 19th International Conference on Text, Speech, and Dialogue, TSD 2016, held in Brno, Czech Republic, in September 2016. The 62 papers presented together with 3 abstracts of invited talks were carefully reviewed and selected from 127 submissions. They focus on topics such as corpora and language resources; speech recognition; tagging, classification and parsing of text and speech; speech and spoken language generation; semantic processing of text and speech; integrating applications of text and speech processing; automatic dialogue systems; as well as multimodal techniques and modelling.

**African American Slang** Jul 29 2019 In this pioneering exploration of African American slang - a highly informal vocabulary and a significant aspect of African American English - Maciej Widawski explores patterns of form, meaning, theme and function, showing it to be a rule-governed, innovative and culturally revealing vernacular. Widawski's comprehensive description is based on a large database of contextual citations from thousands of contemporary sources, including literature and the press, music, film and television. It also includes an alphabetical glossary of 1,500 representative slang expressions, defined and illustrated by 4,500 usage examples. Due to its vast size, the glossary can stand alone as a dictionary providing readers with a reliable reference of terms. Combining scholarship with user-friendliness, this book is an insightful and practical resource for students and researchers in linguistics and general readers interested in exploring lexical variation in contemporary English.

**Last Great Queen?** Jul 01 2022 Elizabeth II is a model of feminine excellence and an example for young people who may not be born to royal families, but who should consider themselves as princesses and princes of the family to which they have been born. Like Elizabeth,

who even as a child knew the significance of the role into which she had been born and started training for the future task, young people should prepare for their future by acquiring training early in their life. Like Elizabeth, who married the first man she fell in love with, young women should insist on marrying the first man they fall in love with, to preserve and protect their womanhood and honour. Finally, Elizabeth trained as a car mechanic and driver, despite her wealthy royal background. How many women have the courage today to train in skills which society considers a man's domain? The Queen of England recommends training to young people with this remark: "It's all to do with the training: you can do a lot if you are properly trained." In this era when the monarchy is considered to be an outdated institution, the British Royal Family has made it known that they will step aside when the British people will ask them to do so. What makes the British monarchy different from other royals in the world? What, in the 1870s, might have motivated the pre-colonial Kings of Douala on the coast of today's Cameroon to apply to Queen Victoria, the great-grandmother of Queen Elizabeth II, to colonise them? Unity Elias Yang is also the author of: - The Third World, where is it? - A Global State through Democratic Federal World Government - Your Baby's long journey to school - Little Anita visits the Bank - Children and Citizenship levels 1-6 - Women and Children's Chamber of Parliament: democratising representation.

**Book of Commentaries and skits 2014** Aug 29 2019 This book references correlation's, parities, differences, and possible solutions of some of life's new and emerging challenges. Political connotations are just a metaphor and auspices of destined profound, moral indignations. Realizing in this life, no one, but no one, has all the definitive answers to any or all-real world solutions, except for personal and collective opinions that we experience every day. This writer being a pragmatist, innovator, scientist and commentator conveys researched concepts of opinions of personal & collective edification's, coupled with amusing personal and informative skits. **Die geschmierte Republik** Nov 05 2022 Es ist etwas faul in Deutschland, Korruption wohin man schaut: Ob es um systematische Schmiergeldzahlungen von Pharma- und Baukonzernen geht oder die bestens vergütete Zustimmung von Betriebsräten zum Stellenabbau, um Schiebereien im Sport oder lukrative Steuergeschenke gegen üppige Parteispenden - es gibt keinen gesellschaftlichen Bereich, in dem nicht durch Bestechung von Menschen in Schlüsselpositionen kräftig nachgeholfen wird. Thomas Wiczorek deckt die eklatanten Missstände auf. Sein Fazit: Der Kampf gegen die Korruption ist aussichtslos, solange die Mächtigen aus Politik, Wirtschaft und den Verbänden an diesen Machenschaften nichts ändern können - und wollen.

**Black Cultural Mythology** Sep 22 2021 Offers a new conceptual framework rooted in mythological analysis to ground the field of Africana cultural memory studies. Winner of the 2021 CLA Book Award presented by the College Language Association Black Cultural Mythology retrieves the concept of "mythology" from its Black Arts Movement origins and broadens its scope to illuminate the relationship between legacies of heroic survival, cultural memory, and creative production in the African diaspora. Christel N. Temple comprehensively surveys more than two hundred years of figures, moments, ideas, and canonical works by such visionaries as Maria Stewart, Richard Wright, Colson Whitehead, and Edwidge Danticat to map an expansive yet broadly overlooked intellectual tradition of Black cultural mythology and to provide a new conceptual framework for analyzing this tradition. In so doing, she at once reorients and stabilizes the emergent field of Africana cultural memory studies, while also staging a much broader intervention by challenging scholars across disciplines—from literary and cultural studies, history, sociology, and beyond—to embrace a more organic vocabulary to articulate the vitality of the inheritance of survival. Christel N. Temple is Associate Professor of Africana Studies at the University of Pittsburgh. Her books include Transcendence and the Africana Literary Enterprise; Literary Spaces: Introduction to Comparative Black Literature; and Literary Pan-Africanism: History, Contexts, and Criticism.

Conference papers are organized in 16 technical sessions, covering the following topics: intelligent e-learning, classification and clustering methods, web intelligence and interaction, agents and multi-agent systems, social networks, intelligent knowledge management, language processing systems, modeling and optimization techniques, evolutionary computation, intelligent and group decision making, swarm intelligence, data mining techniques and applications, cooperative problem solving, collective intelligence for text mining and innovation, collective intelligence for social understanding and mining,

and soft methods in collective intelligence.

**Scooter Squirrel** Nov 24 2021 Children can be godly examples. 2 Chronicles 34:1-2 tells us Josiah was only eight years old when he became king of Jerusalem. Scooter Squirrel, along with her two sisters, Ava and Katie, teach the Ten Commandments through different adventures. God gave Scooter and her sisters special powers to ensure His word is made plain, and everyone would know they are God's mouthpieces. The first four commandments help us build a lasting relationship with God. The last six commandments help us build lasting relationships with others. God's divine order for the family is Jesus, who leads and guides the husband; the husband, who protects and provides for the family; the wife, who lovingly takes care of the home and the children. In this day and time, it appears the divine order for most families are null and void. For this reason, some families are in chaos. Scooter Squirrel will teach children how to have a personal relationship with God, our family, and others. It is my prayer that as the children enjoy reading this book about the Ten Commandments they will share it with their family and friends The cycle of learning and teaching will repeat until the masses are reached, and we see the fruits of our children's labor.

**Aquinas on the Web?** Mar 29 2022 The "problem" of the internet has plagued theologians for the past decade: some have claimed it as "gnostic" and evil because it denies the Christian doctrine of the incarnation and lacks serious engagement with others. Some have viewed the internet as presenting good possibilities for theological work because it provides a democratic arena for sharing ideas, unrestricted by traditional hierarchies and concerns. None of these considerations quite capture the problems or benefits that the internet provides. Jana Bennett reviews critically how Web 2.0 both develops from traditional theology and also how Web 2.0 may change the way traditional theology is done. Web 2.0 spaces do invite many more lay people to participate in theological conversations than in the past, but the conversations frequently become constricted because of the medium. At the same time, Web 2.0 also offers surprising spaces for renewing or revisiting questions that theologians have left aside. The book explores how theologians and other interested persons might carefully respond, neither totally rejecting nor wholly embracing Web 2.0 technology.

**Sick Schools** Oct 12 2020 Who's afraid of for-profit education? Those who work in non-profit or government owned and operated schools. Many parents and other stakeholders have been made fearful by this education establishment. What's more important to humans: nutrition or education? Nutrition is more important because it is the prerequisite for other human activities, including education. What organizations provide food and who pays for the food? Food is provided by for-profit farmers, for-profit processors, for-profit wholesalers, and for-profit retailers. Most food is purchased with the consumers' own money, but a significant amount is purchased by low-income individuals using food stamps. Why can't education be provided similarly using education stamps? We trust for-profit enterprises to provide our food. Why can't we trust for-profit enterprises to provide K-12 education? Fearmongers have frightened us and made us into gullible compliant socialists who despise commercial activities in education. Go to the supermarket and ponder its marvelous array of foods and then contemplate how a for-profit K-12 education sector would please and amaze its customers.

**The Unlucky Country** Aug 22 2021 This book is about the Republic of the Philippines. It is the truth about the country, as seen through the eyes of a foreigner who lives there, and has been associated with the country since 1981. It tells of the culture, the people, the economy, the

poverty, the disasters, the politics and of the need for change. The Philippines can find the road to prosperity. This book explains what needs to happen for that to take place. For anyone with any interest in the Philippines, or any connection with the country, this book cannot be overlooked. The author will donate 25% of author royalties from this book to charity to assist poverty-stricken Filipino families.

**The Devil's Long Tail** Oct 31 2019 The internet may be a utopia for free expression, but it also harbours nihilistic groups and individuals spreading bizarre creeds, unhindered by the risk-averse gatekeepers of the mass media -- and not all are as harmless as the Virtual Church of the Blind Chihuahua or Sexastrianism. With few entry barriers, ready anonymity and no centralised control, the internet offers wired extremists unprecedented access to a potential global audience of billions. Technology allows us to select the information we wish to receive -- so those of a fanatical bent can filter out moderating voices and ignore countervailing arguments, retreating into a virtual world of their own design that reaffirms their views. In *The Devil's Long Tail*, Stevens and O'Hara argue that we misunderstand online extremism if we think intervention is the best way to counter it. Policies designed to disrupt radical networks fail because they ignore the factors that push people to the margins. Extremists are driven less by ideas than by the benefits of participating in a tightly-knit, self-defined, group. Rather, extreme ideas should be left to sink or swim in the internet's marketplace of ideas. The internet and the web are valuable creations of a free society. Censoring them impoverishes us all while leaving the radical impulse intact.

**The Reincarnation of Columbus** Jun 07 2020 Ryan Columbus O'Grady was found dead in his crib when he was four months old. There was no sound, no struggle. A postmortem failed to show an adequate cause of death. This book is an account of the profound effects his death had on the author's life, telling in graphic detail the results of buried emotion on family, friends and business relationships. It is a painful and sometimes desperate story of his struggle to move out of mediocrity into a life deeply searching for soul purpose. It is about a father's pain, a father's deep, core wound. It is a man's struggle, because he has documented in this book the ruinous effect this old male approach to grief had on his life, and in doing so, hopes it goes some way to healing the malaise, the mediocrity, the buried pain, the unforgiven, the unsaid, the hidden hurt in fathers, mothers and all those left behind after the death of a loved one. If you have been touched by grief, sadness, suicide, depression, loss or abandonment, this book may help you make sense of life and death. It may help you find who you are and why you are here! Join the author in this epic voyage from the pain and sorrow of a father's grief, to the new world of forgiveness, empowerment and love.

*Der (Un-)Vergessene Widerstand* Dec 14 2020 Das Kleine ist das Große. Dieses Buch macht den vergessenen Widerstand des 3. Reiches wieder lebendig und damit unvergessen. Es beschreibt die Herausforderungen des Alltags und die ungewöhnlichen Lösungen der Lebenswege derjenigen, die im Widerstand tätig waren. Die unbekanntesten Heldentaten des "kleinen" Mannes werden aus dem geschichtlichen Dunkel ins Licht geholt, weg vom Fokus des Widerstands des Adels. Der Alltag der Widerständler wird im sozialen Kontext des Zeitgeschehens beschrieben, getragen von den persönlichen Geschichten. Das Buch ist ein Zeitzeugen-Bericht, das zeigt, wie kleine Gesten und ziviler Mut, innere Integrität und Freiheit trotz der täglichen Gefahren, im Angesicht von Verrat, Verfolgung, Konzentrationslager und Tod, Menschen von damals wie heute Lebensmut gibt und sie rettet. Es sind berührende Geschichten von ganz normalen Menschen, die den Sturm der Zeit von 1900 - 1945 trotzten. Leser beschreiben es als Buch der Anthropologie, der Menschenkunde.

**Chasing Baseball** Sep 10 2020 For more than five decades, pioneering researcher Dorothy Seymour Mills has studied and written about baseball's past. With this groundbreaking book, she turns her attention to the historians, stat hounds, and many thousands of not-so-casual fans whose fascination with the game and its history, like her own, defies easy explanation. As Mills demonstrates, baseball elicits a passion—and inspires a slightly off-kilter, obsessive behavior—that is only slightly less interesting than the people who indulge it.

**Sexuality Education: Past, Present, and Future [4 Volumes]** Jun 19 2021 An exemplary team of professionals provides a comprehensive look at sex education, the heated debate over federal controls, current research and practice, programs, politics, legislation, and cultural and religious issues related to sex and sexuality education. In the groundbreaking *Sexuality Education: Past, Present, and Future*, the history, practices, and politics of sexuality education are explained. Respected educators, counselors, and therapists marshal both research and educated opinion to offer insights into exactly what is meant by "sex education," what the various approaches are, what "age appropriate" lessons are supported by most professionals, and the impact of government policies. Noting that the need for sexuality education has expanded to adults, from new parents to senior citizens, this unique work also takes readers into classrooms and makes them privy to conversations representing everyone from elementary school students to nursing home residents. These comments reveal the range of unanswered questions about sex—questions that are important for psychological, as well as physical health. In addition, the contributors explore ongoing issues in sexuality education, such as how to present "culturally competent" lessons that include consideration of race, ethnicity, gender, religion, and sexual orientation. The experts also examine sexuality education in other countries, the challenges those countries face, and their victories over unplanned pregnancy and STDs in the global effort to preserve sexual health. **The Governance and Management of Universities in Asia** Mar 05 2020 This volume seeks to identify and explore the dynamics of global forces on the development of higher education in Asia, in particular, how neoliberalism has affected reforms on university governance and management in the region. It includes a set of country-specific studies on how various countries have responded to the dominant neoliberal ideology at the systemic, institutional, and process levels. The focus is on the relationship between the state and the universities, which is usually reflected in the degree of autonomy and accountability allowed in a particular higher education system. The selected countries are Cambodia, China, Indonesia, India, Japan, Malaysia, Singapore, South Korea, and Thailand. Each case study examines the establishment of corporatised or autonomous universities in the country focusing on (i) the acts, reports, and/or policies that led to such a move as well as the rationales behind the move; (ii) the changes in the governance and organisational structure of the universities, highlighting the kinds of autonomy that the universities have; (iii) the new management strategies, techniques, and practices that have been introduced to the university including the internal and external quality assurance mechanisms, and (iv) some of the tensions, conflicts, and acts of resistance that may have emerged.

**Online Communities and Social Computing** Sep 03 2022 The 13th International Conference on Human-Computer Interaction, HCI International 2009, was held in San Diego, California, USA, July 19-24, 2009, jointly with the Symposium on Human Interface (Japan) 2009, the 8th International Conference on Engineering Psychology and Cognitive Ergonomics, the 5th International Conference on Universal Access in Human-Computer Interaction, the Third International Conference on Virtual and Mixed Reality, the Third International Conference on Internationalization, Design and Global Development, the Third International Conference on Online Communities and Social Computing, the 5th International Conference on Augmented Cognition, the Second International Conference on Digital Human Modeling, and the First International Conference on Human Centered Design. A total

of 4,348 individuals from academia, research institutes, industry and governmental agencies from 73 countries submitted contributions, and 1,397 papers that were judged to be of high scientific quality were

included in the program. These papers address the latest research and development efforts and highlight the human aspects of the design and use of computing systems. The papers accepted for presentation

thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas.
